### **DATA ELEMENT # 1**

#### **ORI NUMBER**

- 1) Must be present -- cannot be blank.

- 2) Must be a valid 9-character NCIC number, where the last 2 positions of the ORI must reflect "00" for all state and local agencies.  
(Error Messages 10052, 10086, 11004, 12004, 13004, 14004, 15004, 16004)
- 3) First two positions must be the code of the state, "LA", in which the incident occurred.  
(Error Message 10059)

### **DATA ELEMENT # 2**

#### **INCIDENT NUMBER**

- 1) Must be present -- cannot be blank.  
(Error Messages 10001, 11001, 12001, 13001, 14001, 15001, 16001)
- 2) Zero Reporting Segments (Segment 01) must contain twelve zeros as the incident number.  
(Error Message 10092)
- 3) Must be left justified with blank right-fill if under 12 characters in length.  
(Error Messages 10016, 11016, 12016, 13016, 14016, 15016, 16016)
- 4) Valid character combinations can include A-Z, 0-9, hyphens, and/or blanks.  
(Error Messages 10017, 11017, 12017, 13017, 14017, 15017, 16017)
- 5) Must be blank right-fill if under twelve characters in length. The field cannot have embedded "Blanks" between the first and last characters entered.  
(Error messages 10015, 11015, 12015, 13015, 14015, 15015, 16015)

- 6) This field must be unique for each incident reported by the agency. This means that no two incidents can have the same incident number. Some agencies ensure uniqueness by prefixing every incident number with a two-digit year followed by a number starting with 1, while others just increment the number by one for each new incident.  
(Error Message 10056)
- 7) Cannot have duplicate incident number for "Time-Window" Segment.**  
(Error Message 10087)

**DATA ELEMENT # 3      INCIDENT DATE/HOUR**

- 1) Must be present -- cannot be blank.  
(Error Message 11001)
- 2) Each component of the date must be valid; that is, months must be 01-12, days must be 01-31, and year must include the century (i.e., 19xx, 20xx). In addition, days cannot exceed maximum for the month (e.g., June cannot have 31 days). The date cannot exceed the current date.  
(Error Message 11005)
- 3) When an ORI becomes inactive, no incident data may be submitted to LIBRS with an incident date on or after that date. However, adjustments to previously submitted data may be done.  
(Error Message 11018)
- 4) The date cannot be earlier than 01/01/1991 for "I" = Incident Report submissions. This edit will preclude dates that are obviously incorrect since the FBI began accepting data on this date.  
(Error Message 11072)
- 5) When an agency converts from Summary reporting to Incident Based Reporting (IBR) or commences to report LIBRS data, no data regarding an incident previously submitted under the Summary reporting system can be submitted with an incident date later than the date the agency commenced reporting, otherwise it will be regarded as a duplicate submission and be rejected since the Summary System already contains the aggregate data for the months before LIBRS conversion. In

other words, if an agency sends IBR data for the first time on 20 September 1995, all dates in data element # 3 for incidents, recovered property, and arrests must be within September, 1995. The exception to this is when EXCEPTIONAL CLEARANCES occur for a pre-IBR incident. In this case, Data Element #3 (Incident Date/Hour) may be earlier than September, 1995, but Data Element # 5 (Exceptional Clearance Date) must be within September, 1995. The State will maintain a table of start dates (base dates) for each local agency. Except for the above example, the State will reject data submitted with an Incident Date for months prior to the agency's start date.

**(Error Message 11073)**

- 6) The date cannot be later than the year and month the tape represents. (example: The May 1995 tape cannot contain incidents happening later than this date)  
(Error Message 11070)
- 7) The **Submission Date (#C3), in positions 23-30**, and the incident date must be valid entries. The state software uses these to determine if the complete incident should have been reported to the state, or if a subset of the segments should have been submitted as "Time Window" submissions.  
(Error Message 11075)
- 8) Administrative Segments (Segment 10) submitted with a Segment Action Type of "W" = Time-Window Submission cannot have a date in Data Element # 3 (Incident Date/Hour) which would be a valid date for an Incident. For any subsequent "M" = Modify of a previously submitted "W" = Time-Window Submission, this is also true.  
(Error Message 11076)
- 9) Administrative Segments (Segment 10) submitted with a Segment Action Type of "M" = Modify cannot change the date in Data Element # 3 (Incident Date/Hour) of segments which were previously submitted with a Segment Action Type of "I" = Incident Report.  
(Error Message 11061)
- 10) Administrative Segments (Segment 10) submitted with a Segment Action Type of "M" = Modify cannot change the Report Date Indicator (position 51 of the segment) of Segments which were previously submitted with a Segment Action Type of "I" = Incident Report.

(Error Message 11062)

- 11) Administrative Segments (Segment 10) submitted with a Segment Action Type of "M" = Modify cannot change the hours in Data Element # 3 (Incident Date/Hour) of Segments which were previously submitted with a Segment Action Type of "I" = Incident Report.  
(Error Message 11063)
- 12) If HOUR is entered it must be "00" through "23." Note: If the incident Date occurred at exactly midnight, enter the Incident Date as if the time was 1 minute past midnight. (Example: If the crime occurred at exactly midnight on Thursday, enter Friday's date) and 00 for the hour.  
(Error Message 11052)
- 13) If the Incident Date is unknown, use the report date. Indicate a report date with an "R" in the space before the hour. If this is the Incident Date, then leave the "Report" indicator blank.  
(Error Message 11051)

#### **DATA ELEMENT # 4**

#### **CLEARED EXCEPTIONALLY**

- 1) Must be present -- cannot be blank.  
(Error Message 11001)
- 2) Must be a valid code.  
(Error Message 11004)
- 3) Cannot be "N" = Not Applicable if Data Element # 5 (Exceptional Clearance Date) is entered.  
(Error Message 11053)
- 4) When a value other than "N" = Not Applicable is entered, there can be no Arrestee Segments associated with the Incident.  
(Error Message 10071)
- 5) Administrative Segments (Segment 10) submitted with a Segment Action Type of "M" = Modify must have an "N" = Not Applicable in Data Element # 4 (Exceptional Clearance Indicator) when arrestees were already present for the incident report.  
(Error Message 11064)

- 6) Administrative Segment (Segment 10) submitted with a Segment Action Type of "W" = Time Window Submission cannot contain an "N" = Not Applicable in Data Element #4 (Cleared Exceptionally).  
(Error Message 11054)

## DATA ELEMENT # 5

## EXCEPTIONAL CLEARANCE DATE

- 1) The clearance date cannot be earlier than the incident date.  
(Error Message 11055)
- 2) Must be present if case was cleared exceptionally per data value code in Data Element # 4 (Cleared Exceptionally).  
(Error Message 11056)
- 3) Each component of the date must be valid; that is, months must be 0-12, days must be 01-31, and year must include the century (i.e. 19xx, 20xx). In addition, days cannot exceed maximum for the month (e.g., June cannot have 31 days). The date cannot be greater than that entered within the "Month of Tape" and "Year of Tape" are "06/1995", "the clearance date cannot contain any date 07/01/1995 or greater.  
(Error Message 11005)
- 4) Administrative Segments (Segment 10) submitted with a Segment Action Type of "W" = Time-Window Submission must contain Data Element # 4 (Cleared Exceptionally) and # 5 (Exceptional Clearance Date). Both must be present to be a valid submission.  
(Error Message 11057)
- 5) Administrative Segments (Segment 10) submitted with a Segment Action Type of "W" = Time-Window Submission cannot have an Exceptional Clearance Date (Data Element # 5) earlier than the "Time-Window" Base Date. For any subsequent "M" = Modify of a previously submitted "W" = Time-Window Submission, this is also true.  
(Error Message 11020)
- 6) Administrative Segments (Segment 10) submitted with a Segment Action Type of "M" = Modify with an "N" = Not Applicable in Data Element # 4 (Exceptional Clearance Indicator)

cannot have an entry in Data Element # 5 (Exceptional Clearance Date).

(Error Message 11066)

7) Administrative Segments (Segment 10) submitted with a Segment Action Type of "M" = Modify for a previously submitted "W" = Time-Window Submission must have a date in Data Element # 5 (Exceptional Clearance Date).

(Error Message 11067)

8) Administrative Segments (Segment 10) submitted with a Segment Action Type of "W" = Time-Window Submission or "M" = Modify cannot have a date earlier than the date the ORI was certified for LIBRS submission. Data Element # 5 (Exceptional Clearance Date), was earlier.

- 21) **If the LRS Code is appended with "-A", "-C", "-I", "-S" or "-H"** this means the offense was an inchoate of the LRS Offense shown in first ten digits of DE # 6 or DE # 45. These modifiers for the LRS

Code should always be considered "Completed", even if the principal LRS offense was not. The offender completed the conspiracy, even if the offense itself was not completed by the offender conspired with.

**Requirement 4**

(Error Message 13019)

5) If "5" = Recovered, every property description code entered into Data Element # 15 (Property Description) must also have been reported as "7" = Stolen/Etc. This applies to both initial submissions and resubmissions for incident reports with Segment Action Type "1" = Incident Report. This does not apply, of course, for offenses that allow "recovered" property without first being "stolen." **(does not apply to NIBRS offense codes of 280 and 250) Nor does it apply when Property Description Code "38" = Vehicle Parts/Accessories is subsequently reported as recovered when a vehicle was stolen.**

(Error Message 10072 **modified**)

6) If code is "2" = Burned, "3" = Counterfeited/Forged, "4" = Destroyed/Damaged/Vandalized, "5" = Recovered, "6" = Seized, or "7" = Stolen/Etc., Data Elements # 15-22 must have applicable entries in this segment.

(Error Message 13072)

7) When submitting Segment Action Type of "W" = Time-Window Submission or "M" = Modify, Data Element # 14 (Type of Property Loss/Etc.) must be "5" = Recovered.

(Error Message 13078)

8) **When there is only one completed property offense in an incident, a property segment can contain a "7" = Stolen Property or an "8" = Unknown. The incident will reject if an agency sends a "7" and also an "8" within the same incident, when there is only one completed property offense within the incident.**

**(Error Message 84203, 84304, 84312)**

9) To ensure that 35A-35B Drug/Narcotic Offenses are properly reported, Data Element # 15 (Property Description) cannot be "11" = Drug/Narcotic Equipment for a 35A Drug/Narcotic

Violation. Similarly, "10" = Drug/Narcotics cannot be entered for a 35B Drug Equipment Violation. This is enforced by software when there is a single "Crime Against Property" offense.

However, in multiple "Crimes Against Property" offenses where one offense is a 35A Drug/Narcotic Violation and the other is, say, a 120 Robbery that involves "11" = Drug/Narcotic Equipment, it can be entered. In this case, the above edit will be bypassed. Similarly, "10" = Drugs/Narcotics can be entered along with a 35B Drug Equipment Violation as long as that property is involved in the 120 Robbery.

(Error Message 13087)

10) Property Loss Code must be applicable to offense(s) submitted in Data Element 6. Refer to (Mandatories) for the correct values to use for each of the offenses.

2) If more than one code entered, cannot be a duplicate.

(Error Message 13006)

3) If "88" = Pending Inventory is entered, then Data Element # 16 (Value of Property) must be "1" = Unknown (\$1.00). One dollar is used as a quality assurance edit check that instructs the State's computer to accept the "88"= Pending inventory entry.

(Error Message 13053)

4) At least one description code must be entered when Data Element # 14 (Type Property Loss/etc.) contains Property Segment(s) for: "2" = Burned, "3" = Counterfeited/Forged, "4" = Destroyed / Damaged / Vandalized, "5" = Recovered, "6" = Seized, "7" = Stolen/Etc.

(Error Message 13075)

- 5) If Data Element # 14 (Type Property Loss/etc.) contains "5" = Recovered, every property description code entered into Data Element # 15 (Property Description) must also have been reported in Data Element # 14 (Type Property Loss/etc.) as "7" = Stolen/Etc. This applies to both initial submissions and resubmissions for incident reports with Segment Action Type "I" = Incident Report. This does not apply, of course, for offenses **(refers to NIBRS offenses of 250 and 280)** that allow "recovered" property without being first "stolen." **Nor does it apply when Property Description Code "38" = Vehicle Parts/Accessories is subsequently reported as recovered when a vehicle was stolen.**  
(Error Message 10072 modified)

**DATA ELEMENT # 16      VALUE of PROPERTY**

- 1) Must be numeric entry with zero or blank left-fill if entered.  
(Error Message 13002)
- 2) If value is unknown, must have a value of "1" = Unknown (\$1.00). A value of zero is allowed only for property description codes of: "09" = Credit/Debit Cards, "22" = Nonnegotiable Instruments, "77" = Other, "99" = (special category). Note that codes "09" and "22" require that a zero value be submitted.  
(Error Message 13051)
- 3) If Data Element # 15 (Property Description) has a code of "09" = Credit/Debit Cards or "22" = Nonnegotiable Instruments, a zero value is required for Data Element # 16 (Value of Property).  
(Error Messages 13091)  
**NOTE: This edit was formerly warning message # 13040.**
- 4) If a value is entered, then Data Element # 15 (Property Description) must be entered.  
(Error Message 13054)
- 5) When Data Element # 14 (Type Property Loss/etc.) entries are made for both "7" = Stolen/Etc. and "5" = Recovered, the recovered "property" cannot have property value(s) greater than corresponding property value(s) reported stolen.  
(Error Message 10084)

- 6) When Data Element # 16 (Value of Property) contains a value that exceeds a LIBRS assigned threshold amount, a "warning" message will be created. The participant is asked to check to see if the value entered was a data entry error, or if it was intended to be entered. A warning message is always produced when the value is \$1,000,000 or greater. For example, if the value of a property was \$12,000.99 but was inadvertently entered as \$1,200,099 in the computer record sent to LIBRS, a "warning" message will be generated. In this case, the cents were entered as whole dollars.  
(Error Message 13042)

## **DATA ELEMENT # 17      DATE RECOVERED**

- 1) Each component of the date must be valid; that is, months must be 01-12, days must be 01-31, and year must include the century (i.e., 19xx, 20xx). In addition, days cannot exceed maximum for the month (e.g., June cannot have 31 days). The date cannot be greater than that entered within the "Month of Tape" and "Year of Tape" fields on the data record. For example, if "Month of Tape" and "Year of Tape" are "06/1995," the recovered date cannot contain any date 07/01/1995 or greater.

(Error Message 15060)

2) Must be a valid code.  
(Error Message 15004)

3) Husbands and wives (i.e., spouses) must be at least 10 year of age.  
(Error Message 15050, 14050)

4) The sex of the victim and/or offender must reflect the implied relationship. The following relationships must reflect a specific sex for the victim, offender, or both depending upon the relationship:

<u>Relationship</u>	<u>Sex Code</u>
XS - <u>Victim was Ex-Spouse</u>	Different

CS - <u>Victim was Common-Law Spouse</u>	Different

<b><u>XB - Victim was Ex-Boyfriend/Girlfriend</u></b>	<b>Different</b>
NM - <u>Non-Married Live-In</u>	Different

(Error Message 14053)

- 5) The age of the victim and/or the offender must reflect the implied relationship.

<u>Relationship</u>	<u>Victim Must be</u>
CH - <u>Victim was Child</u>	Younger
PA - <u>Victim was Parent</u>	Older
GP - <u>Victim was Grandparent</u> Older	
GC - <u>Victim was Grandchild</u>	Younger

XS - <u>Victim was Ex-Spouse</u>	at least 10 yrs.
NM - <u>Victim was Non-Married Live-In</u>	at least 10 yrs.

(Error Message 14054)

- 6) Relationship cannot be entered when Data Element # 34 (Offender Number to be Related) is "000" = Unknown.  
(Error Message 15068)

- 7) When "VO" = Victim was Offender is entered, a minimum of two (2) Victims and two (2) Offender Segments must be submitted. "VO" indicates situations such as brawls and domestic disputes **where all of the participants in the incident were victims and offenders of the same offense (i.e., assaults or double murders where two people kill each other)**. In most cases, each victim is also the offender; therefore, every victim record would contain a "VO" code. However, there may be some situations where only one of the victims is also the offender, but where the other victim(s) are not also the offender(s) **(i.e., a victim who is not an offender would be an innocent bystander in a barroom brawl or a child who is victimized as a result of the parents domestic dispute)**.  
(Error Message 15070)

- 8) When entered, "VO" = Victim was Offender can only be entered once in a victim record and can refer to an offender only once. Since "VO" points to himself/herself, a victim cannot be two offenders.  
(Error Message 15071, 15074)

- 9) When the related offender has "unknown" values entered for age, sex and race, the relationship must be "RU" = Relationship Unknown. This edit ensures a logical relationship., e.g., if

brother was entered, age, sex and race would not be unknown values.

(Error Message 15072)

10) In a multiple offender incident, a victim cannot have a relationship of "SE" = Spouse to more than one offender.  
(Error Message 15075)

11) In a multiple victim incident, two or more victims cannot have a victim relationship of "SE" = Spouse to the same offender.

**This data element must be blank when "000" is entered into Data Element # 34.**

(Error Message 15059)

## **OFFENDER SEGMENT EDITS**

### **DATA ELEMENT # 36      OFFENDER SEQUENCE NUMBER**

- 1) Must be present -- cannot be blank.  
(Error Message 14001)
- 2) Must be numeric entry with zero left-fill. The purpose of the field is to distinguish one offender from another and to identify the situation where nothing was known about the number of offenders or who they were. For example, a corpse was found in a ditch and there were no eyewitnesses or other information that would provide data about possible offenders. In that case, "000" = Unknown would be entered. However, if five offenders were seen running from the scene, then five offender records would be submitted.  
(Error Message 14002)
- 3) If the incident is exceptionally cleared, then "000" cannot be entered. "000" indicates that nothing was known about the offender(s) regarding number and any identifying information. One of the criteria for exceptionally clearing an incident is that at least one of the offenders be known.  
(Error Message 14057)
- 4) For a Justifiable Homicide (09C) at least one of the offenders must have "known" information for age, sex, and race. Consequently, "000" is not valid as an offender sequence number.  
(Error Message 14059)
- 5) If the number is "000" = Unknown, no other Offender Segments can be submitted.  
(Error Message 14055)
- 6) Must be unique - cannot be duplicated.  
(Error Message **14051**)
- 7) **When Data Element # 36 = "000", then Data Element # 8 must be "N" = Not Applicable and Data Element # 8A must be "88" = None.**

In addition, days cannot exceed maximum for the month (e.g., June cannot have 31 days). The data cannot be greater than that entered within the "Month of Tape" and "Year of Tape" fields on the data record. For example, if "Month of Tape" and "Year of Tape" are "06/1995," the date of birth cannot contain any date 07/01/1995 or greater.

(Error Message 16004)

3) The Louisiana Revised Statute cannot be (14:20)--Justifiable Homicide, because this offense does not result in a subsequent arrest of the offender.

(Error Message 16070)

4) **An incident cannot have arrests when Data Element # 6 (Louisiana Revised Statute Number) is 14:20 ("09C") = Justifiable Homicide. A Justifiable Homicide never involves an arrest of the offender (the person who committed the justifiable homicide).**

(Error Message 16069)

**DATA ELEMENT # L45 ARREST CONNECTION to OFFENSE**

1) Must be a valid offense sequence number. The offense segment referred to in this data element must exist.

(Error Message 16004)

3) If more than one code entered, cannot be a duplicate.

4) Value "01" = Unarmed is mutually exclusive with any other value, i.e., it is to be used only if no other code applies. **Note: If the arrestee was in possession of a toy or play weapon this would be reported as being "01" = Unarmed.**

(Error Message 16007)

5) The third character must be "A" = Automatic or blank.

(Error Message 16054)

6) If the firearm is Automatic, add "A" = Automatic as the third character of code; valid only with the following codes:

12 - Handgun

13 - Rifle

14 - Shotgun

15 - Other Firearm

(Error Message 16055)

**DATA ELEMENT # 47      AGE of ARRESTEE (at the time of the arrest)**

1) Must be present--cannot be blank.

**(Error Message 26010)**

C - The estimated age cannot be "00" = Unknown and have a trailing "E".

(Error Message 16022)

5) When Juvenile Qualifiers are used the age must be "01" - "16" for a JU:RUN - Runaway Offense (90I), JU:UNG - Ungovernable (90C), JU:CUR - Curfew (90B), or JU:TRU - Truancy (90Z).

(Error Message 22100)

**DATA ELEMENT # L47    DATE of BIRTH of ARRESTEE**

**1) AGE CANNOT BE ESTIMATED IF DATE OF BIRTH IS KNOWN.**

If the age is reported with trailing "E" = Estimated age in Data Element # 47 (Age of Arrestee at the Time of Arrest) and the agency also reports date of birth of arrestee (DE # 47) this incident would be rejected. If date of birth is known, age cannot be estimated.

(Error Message 26010)

**2) AGE CANNOT BE UNKNOWN IF DATE OF BIRTH IS KNOWN.**

If the age of an arrestee (at the Time of Arrest) is reported as "00" = Unknown and Data Element # L47 (Date of Birth of Arrestee) is also reported, this incident would be rejected. If date of birth is known, age cannot be unknown.

# III. ERROR NUMBERS AND MESSAGES

## ERROR NUMBERS AND MESSAGES

### STRUCTURE CHECK ERRORS

**ERROR  
NUMBER**

**MESSAGE**

**10001**

**MUST BE PRESENT -- MANDATORY FIELD**

The data field must be entered; it is required on the Zero Reporting Segment (Segment 01).

**10003**

**MULTIPLE 00 SEGMENTS ENCOUNTERED. ONLY ONE PER SUBMISSION ALLOWED. (LIBRS ONLY)**

**10015**

**CANNOT HAVE EMBEDDED "BLANKS" BETWEEN FIRST AND LAST NON-BLANK CHARACTERS.**

Zero Reporting Segment (Segment 01). Although Data Element 2 (Incident Number) should be entered with 12 zeroes, a pre-edit found embedded blanks between the first and last significant characters.

**10016**

**MUST BE LEFT-JUSTIFIED -- BLANK DETECTED IN FIRST POSITION**

Zero Reporting Segment (Segment 01). Although Data Element 2 (Incident Number) should be entered with 12 zeroes, a pre-edit found a "blank" in the first position. It must begin in position 1 and must also contain 12 zeroes.

**10017**

**CANNOT HAVE CHARACTERS OTHER THAN A-Z, 0-9, HYPHEN, AND/OR BLANKS**

Zero Reporting Segment (Segment 01). Although Data Element 2 (Incident Number) should be entered with 12 zeroes, a pre-edit discovered characters other than A-Z, 0-9, Hyphen, and/or Blanks had been entered.

**10050**

**SEGMENTS ARE OUT OF NUMERIC ORDER FOR THIS INCIDENT**

All segments for an Incident Report must be in numeric order. In this case, one was not. For example, an incident having segments 10, 20, 20, 30, 40, 40, 40, 50 must be written in that order, not as 10, 20, 20, 50, 30, 40, 40, 40.

**10051                   INVALID RECORD SEGMENT ON TAPE**

Any record segment on the tape that is other than "00" through "99" will generate an error.

**10052                   NOT A VALID ORI -- NOT ON ORI FILE**

Data Element 1 (ORI Number) must be a valid 9-character NCIC number.

**10053                   RECORD NOT ON FILE**

A transaction was submitted to "M" = Modify an existing segment on the State System data base. However, the record to be modified was not on file.

The "modify" transaction implies that Exceptional Clearance, Recovered Property, and/or Arrestee Segments were on file as "window" records, not complete Incident Reports. Regardless, the data segment to be modified was not in the State's file.

**10055                   CANNOT HAVE AN INITIAL INCIDENT RECORD WITHOUT STARTING WITH RECORD SEGMENT 10**

When an "I" = Incident Report is submitted, the first segment must be the Administrative Segment (Segment 10). In this case, the first record received for the incident was not the Administrative Segment.

**10056                   INCIDENT ALREADY ON FILE -- PREVIOUSLY ADDED TO FILE ON [mm/dd/yyyy]**

An Incident Report was previously added to the State System data base on the date shown within the error message, and is presently on file. Another report was processed with the same ORI and Incident Number, which resulted in this error.

**10057**

**ACTION TYPE IS NOT VALID FOR THIS RECORD SEGMENT**

The value of "I" = Incident Report, "A" = Add, "M" = Modify, "W" = Time-Window Submission, and "D" = Delete must be applicable to appropriate Segments (01 through 63) as shown below:

**ACTION VALID ONLY WITH THESE LEVELS**

**I Segments 10, 20, 30, 31, 40, 41, 50, 51, 52, 60, 61, 62**

**A 01 = Zero Reporting Segment  
60 = Arrestee Segment  
61 = Arrestee Armed Segment  
62 = Arrestee Statute Segment**

**M 10 = Administrative Segment  
11 = Administrative Modification Segment  
30 = Property Segment  
31 = Property Description Segment  
32 = Property Modification Segment\*  
60 = Arrestee Segment  
61 = Arrestee Armed Segment  
62 = Arrestee Statute Segment  
63 = Arrestee Modification Segment\***

**W 10 = Administrative Segment  
11 = Administrative Modification Segment  
30 = Property Segment  
31 = Property Description Segment  
32 = Property Modification Segment\*  
60 = Arrestee Segment  
61 = Arrestee Armed Segment  
62 = Arrestee Statute Segment  
63 = Arrestee Modification Segment\***

**D 01 = Zero Reporting Segment  
10 = Administrative Segment**

**11 = Administrative Modification Segment**  
**32 = Property Modification Segment**  
**63 = Arrestee Modification Segment**

**\*-Valid only when previously submitted as "W."**

**10059 ALL SEGMENTS ON MAGNETIC MEDIA MUST BE FROM SAME STATE - STATE=[state]**

All segments on the submitted magnetic media must be from the same state for non-federal participants. This will be checked by comparing the 2-character state abbreviation in Data Element 1 (ORI Number); all must have the same value.

**10060 SUBMISSION DATE (C3) [MMDDYYYY] PRECEDES REPORTING PERIOD (C4) IN POSITIONS 31-36 CONTAINING [MMYYYY]**

**10065 EACH SEGMENT 20 MUST HAVE A CORRESPONDING VICTIM SEGMENT**

Each Offense Segment submitted must have a Victim Segment(s) pointing to it via Data Element 24 (Offense Connected to Victim Sequence Number). In this case, no **Offense Segment** pointed to the referenced **Victim Segment**. A **Victim Segment** cannot stand alone; it must have an **Offense Segment** linked to it.

**10070 THE CORRESPONDING OFFENDER RECORD MUST BE PRESENT**

Data Element 34 (Offender Numbers To Be Related) had a value that did not have a corresponding Offender Segment. For example, if the field value shown in Data Element 34 was "**015**," an Offender Segment did not exist with a value of "**015**" in Data Element 36 (Offender Sequence Number).

**10071 CANNOT HAVE ARRESTS IF CLEARED EXCEPTIONALLY**

Whenever an Exceptional Clearance is submitted in the Administrative Segment (Segment 10), there can be no Arrestee Segments (Segment 60) associated with the Incident Report. In

this instance, the incident had been exceptionally cleared, but there were Arrestee Segments also submitted.

**10072 RECOVERED PROPERTY MUST ALSO BE SUBMITTED AS STOLEN**

**Data Element 15 (Property Description) contains property that was reported as recovered without also being reported as stolen. Any property being reported as recovered must first be reported as stolen. This edit does not apply for offenses that allow "Recovered" property without first being "Stolen" (does not apply to NIBRS offenses codes of 280 and 250). Nor does it apply when property description "38" = Vehicle Parts/Accessories is subsequently reported as "Recovered" when a vehicle was stolen.**

Ensure that the property description code was entered correctly. Perhaps the stolen or recovered property "codes" were entered incorrectly, or the recovered property had not originally been reported as stolen.

**10073 NUMBER OF RECOVERED VEHICLES CANNOT BE GREATER THAN THE NUMBER STOLEN**

When Data Element 18 (Number of Stolen Motor Vehicles) is 01 to 99, the number must be equal to or greater than the number entered in Data Element 19 (Number of Recovered Motor Vehicles).

**10074 PROPERTY SEGMENT (SEGMENT 30 & 31) MUST EXIST WITH THIS OFFENSE**

When an "I" = Incident Report is submitted that contains an Offense Segment for a "Crime Against Property," Kidnapping, Gambling, or Drug/Narcotic, Property Segment(s) must also be submitted. In this case, no Property Segments were submitted.

**10075 MISSING A MANDATORY RECORD SEGMENT FOR A COMPLETE INCIDENT**

When an "I" = Incident Report is submitted, the following segments must be included: Administrative Segment, Offense Segment, Victim Segment, Offender Segment and **Offender Using**

**Segment/Gaming Motivation.** One or more of these segments was missing.

**10076 PROPERTY SEGMENT (SEGMENTS 30 & 31) CANNOT EXIST WITH OFFENSES SUBMITTED**

A Property Segment (Segments 30 & 31) was submitted for an Incident Report without an applicable "property" offense code. Property Segments can only be submitted with offenses relating to "Crimes Against Property," Kidnapping, Gambling, or Drug/Narcotic offenses.

**10077 NEED A PROPERTY LOSS CODE OF "1" OR "8" WHEN THIS OFFENSE IS ATTEMPTED**

If Data Element 7 (Offense Attempted/Completed) is "A" = Attempted and Data Element 6 (Louisiana Revised Statute Number) is a "Crime Against Property," **Gambling, Kidnapping, or Drug/Narcotic Offense**. However, there is no Data Element 14 (Type Property Loss/Etc.) of "1" = None or "8" = Unknown.

**10078 A VALID PROPERTY LOSS CODE DOES NOT EXIST FOR THIS COMPLETE OFFENSE**

If Data Element 6 (Louisiana Revised Statute Number) was a Crime Against Property, Kidnapping, Gambling, or Drug/Narcotic Offense, and Data Element 7 (Offense Attempted/Completed) was "C" = Completed, a Property Segment (Segment 30 & 31) must be sent with a valid code in Data Element 14 (Type Property Loss/Etc.).

**10080 CRIMES AGAINST SOCIETY CAN ONLY HAVE ONE VICTIM**

The Incident Report submission only contained offense(s) that were "Crimes Against Society." When this is so, Data Element 25 (Type of Victim) must be "S" = Society/Public, and only 1 victim can be submitted. In this instance, more than 1 Victim Segment was submitted.

**10081 THIS PROPERTY LOSS CODE CANNOT EXIST WITH THE OFFENSES SUBMITTED**

Data Element 14 (Type Property Loss/Etc.) had a loss code that was not applicable to any of the offenses submitted. Refer to (Mandatories) for the correct values to use for each of the offenses.

**10084 RECOVERED PROPERTY VALUE CANNOT BE GREATER THAN THE VALUE WHEN STOLEN.**

When Data Element 14 (Type Property Loss/Etc.) contains Property Segments for both "7" = Stolen/Etc. and "5" = Recovered, the recovered "property" cannot have value(s) greater than corresponding value(s) reported stolen.

**If this error appears for Property Description Vehicle Parts/Accessories, the value exceeded the value of the stolen vehicles.**

**10085 WHEN CONNECTED, EACH VICTIM MUST BE CONNECTED TO ALL OFFENDERS**

**When a victim is connected to a "Crime Against Person" or Robbery LRS Offense Code, all Offender Sequence Numbers (Data Element 36) must be entered in Data Element 34 (Offender Numbers to be Related). If the victim is related to the offender in more than one way, use the closest relationship. In this case, the Victim Segment did not point to all of the offenders.**

**10086 THE LAST 2 POSITIONS OF THE PARTICIPANT'S ORI ARE INVALID**

A non-Federal participant must have "00" in positions 8 and 9 of Data Element 1 (ORI Number). A Federal participant must use its 2-character code assigned by the UCR; no other participant's code can be used. In this submittal, the last 2 positions were entered incorrectly.

10087

**"WINDOW" SEGMENTS ALREADY ON FILE WITH THIS INCIDENT NUMBER**

An Incident Report was submitted but was not added to the State System data base. Already on file was either (1) a "Recovered" Property Segment or (2) an Arrestee Segment.

There are several reasons this situation could occur. First, a duplicate incident number might have been assigned. Second, the participant previously submitted "Time-Window" segments and then submitted the complete Incident Report. Last, during the annual purge of 2-year old incidents, "Window" records were created. The participant's computer was not programmed properly to account for the purge process.

## ZERO REPORTING SEGMENT ERRORS

### ERROR NUMBER

### MESSAGE

10090

#### **ZERO REPORTING MONTH IS NOT 01-12**

A Segment "00" was submitted that had an invalid reporting month in positions 31-32. The data entered must be a valid month of 01 through 12.

10091

#### **ZERO REPORTING YEAR IS INVALID**

A Segment "00" was submitted that did not have four numeric digits in positions 33-36.

10092

#### **ZERO REPORTING INCIDENT NUMBER MUST BE ALL ZEROES**

A Segment "01" was submitted, but the incident number entered into positions 3-14 was not all zeroes.

10093

#### **ZERO REPORTING MONTH/YEAR WAS PRIOR TO THE "BASE DATE"**

A Segment "00" was submitted with a month and year entered into positions 31-36 that is earlier than January 1 of the previous year or before the date the agency converted over to LIBRS.

10094

#### **ZERO REPORTING MONTH/YEAR EXCEEDED MONTH/YEAR OF TAPE**

#### **!!!! WARNING !!!! INVALID DATA VALUE -- ORDINANCE NOT CURRENTLY CLASSIFIED BY LIBRS**

## ADMINISTRATIVE SEGMENT ERRORS

### ERROR NUMBER

### MESSAGE

11001

#### **MUST BE PRESENT -- MANDATORY FIELD**

The data field must be entered; it is required.

11004

#### **INVALID DATA VALUE -- NOT ON LIBRS VALIDATION TABLE**

The data within the referenced data element contains a value that is not specified within the LIBRS Code Table.

11005

#### **DATE ENTERED MUST BE A VALID CALENDAR DATE**

The data element in error contains a date that is not entered correctly. Each component of the date must be valid; that is, months must be 01-12, days must be 01-31, and year must include the century (i.e., 19xx, 20xx). In addition, days cannot exceed maximum for the month (e.g., June cannot have 31 days). Also, the date cannot exceed the current date.

The date cannot be later than that entered within the "Month of Tape" and "Year of Tape" fields on the data record. For example, if "Month of Tape" and "Year of Tape" are "06/1995," the date entered cannot be 07/01/1995 or greater.

The error message will pinpoint what error occurred. For example, DAT11: MONTH EXCEEDS 12 and DAT14: DAY EXCEEDS 31 are some of the "date" error messages that are displayed.

11015

#### **CANNOT HAVE EMBEDDED "BLANKS" BETWEEN FIRST AND LAST NON-BLANK CHARACTERS**

Data Element 2 (Incident Number) contained embedded blanks between the first and last significant characters.

**11016 MUST BE LEFT-JUSTIFIED -- BLANK DETECTED IN FIRST POSITION**

Data Element 2 (Incident Number) must be left-justified with blank right-fill. Since the number is less than 12 characters, it must begin in position 1; one or more blanks were entered starting in position 1 followed by the data.

**11017 CANNOT HAVE CHARACTERS OTHER THAN A-Z, 0-9, HYPHEN, AND/OR BLANKS**

Data Element 2 (Incident Number) can only have character combinations of A-Z, 0-9, Hyphen, and/or Blanks. For example, 89-123-SC is valid, but 89+123\*SC is invalid.

**11018 DATE CANNOT BE ON OR AFTER THE INACTIVE DATE [MMDDYYYY] OF THE ORI**

When an ORI becomes inactive, no incident data may be submitted to LIBRS with an incident date on or after that date. However, adjustments to previously submitted data may be done.

**11020 EXCEPTIONAL CLEARANCE DATE CANNOT PREDATE BASE DATE**

Administrative Segments (Segment 10) submitted with a Segment Action Type of "W" = Time-Window Submission cannot have an Exceptional Clearance Date (Data Element 5) earlier than the "Time-Window **Base Date. For any subsequent "M" = Modify of a previously submitted "W" = Time-Window Submission, this is also true.**

**11021 JUSTIFIABLE HOMICIDE (09C) IS NOT A VALID WINDOW OFFENSE CODE**

Administrative Segments (Segment 10) submitted with a Segment Action Type of "W" = Time-Window Submission cannot have a

Window LRS Offense Code (Data Element 6) of "09C" = Justifiable Homicide. For any subsequent "M" = Modify of a previously submitted "W" = Time-Window Submission, this is also true.

**11051 REPORT INDICATOR MUST BE BLANK OR "R"**

Within Data Element 3 (Incident date/hour) is a report indicator. This field must be "blank" if the incident date is known. If the incident date is unknown, then the report date would be entered instead and must be indicated with an "R" in the Report Indicator field within the Administrative Segment.

**11052 INVALID HOUR ENTRY**

If HOUR is entered within Data Element 3 (Incident Date/Hour), it must be 00 through 23. If "00" = Midnight is entered, be careful that the INCIDENT DATE is as if the time was 1 minute past midnight.

**11053 VALUE ENTERED CONFLICTS WITH PRESENCE OF AN ENTRY IN EXCEPTIONAL CLEARANCE DATE**

Data Element 4 (Cleared Exceptionally) cannot be "N" = Not Applicable if Data Element 5 (Exceptional Clearance Date) is entered.

**11054 CLEARED EXCEPTIONALLY CANNOT CONTAIN "N" WITH SEGMENT ACTION TYPE "W"**

Administrative Segments (Segment 10) submitted with a Segment Action Type of "W" = Time-Window Submission cannot contain an "N" = Not Applicable in Data Element 4 (Cleared Exceptionally).

**11055 CLEARANCE DATE [mmddyyyy] PREDATES INCIDENT DATE [mmddyyyy]**

Data Element 5 (Exceptional Clearance Date) is earlier than Data Element 3 (Incident Date/Hour).

**11056 AN ENTRY MUST BE MADE WHEN CLEARED EXCEPTIONALLY HAS ENTRIES OF A - E**

Data Element 5 (Exceptional Clearance Date) must be present if the case was cleared exceptionally. Data Element 4 (Cleared Exceptionally) had an entry of A - E; therefore, the date must also be entered.

**11057 MUST BE PRESENT FOR TIME-WINDOW SEGMENT**

Administrative Segments (Segment 10) submitted with a Segment Action Type of "W" = Time-Window Submission must contain Data Elements 4 (Cleared Exceptionally) and 5 (Exceptional Clearance Date). Both must be present to be a valid submission.

**11058 OFFENSE CODE FIELD MUST HAVE ENTRY WITH SEGMENT ACTION TYPE "W"**

Administrative Segments (Segment 10) submitted with a Segment Action Type of "W" = Time-Window Submission must have at least one LRS Offense Code entered in the Window Offense code section.

**11059 ADMINISTRATIVE MODIFICATION SEGMENT NOT ALLOWED FOR AN INCIDENT REPORT UNLESS TIME WINDOW SUBMISSION**

**11060 INCIDENT NOT ON FILE**

Administrative Segments (Segments 10 & 11) submitted with a Segment Action Type of "M" = Modify must already be on the State file with Data Element 1 (ORI Number) and Data Element 2 (Incident Number).

**11061 CANNOT MODIFY INCIDENT DATE THIS WAY -- ON FILE IS [mmdyyyrrhh]**

Administrative Segments ( Segment 10) submitted with a Segment Action Type of "M" = Modify cannot change the date in Data Element 3 (Incident Date/Hour) of Segments which were previously submitted with a Segment Action Type of "I" = Incident Report.

**11062 CANNOT MODIFY REPORT FLAG THIS WAY -- ON FILE IS  
[mmdyyyrrhh]**

Administrative Segments (Segment 10) submitted with a Segment Action Type of "M" = Modify cannot change the Report date Indicator (position 51 of the segment) of Segments which were previously submitted with a Segment Action Type of "I" = Incident Report.

**11063 CANNOT MODIFY INCIDENT HOUR THIS WAY -- ON FILE IS  
[mmdyyyrrhh]**

Administrative Segments (Segment 10) submitted with a Segment Action Type of "M" = Modify cannot change the hour in Data Element 3 (Incident Date/Hour) of Segments which were previously submitted with a Segment Action Type of "I" = Incident Report.

**11064 CLEARED EXCEPTIONALLY FIELD MUST CONTAIN "N" WHEN  
ARRESTEES WERE REPORTED**

Administrative Segments (Segment 10) submitted with a Segment Action Type of "M" = Modify must have an "N" = Not Applicable in Data Element 4 (Exceptional Clearance Indicator) when arrestees were already present for the Incident Report.

**11065 CANNOT BE BLANK OR EQUAL "N"**

Administrative Segments (Segment 10) submitted with a Segment Action Type of "M" = Modify cannot have an "N" = Not Applicable in Data Element 4 (Exceptional Clearance Indicator) when the Incident was previously submitted as a "W" = Time-Window Submission.

**11066 CANNOT HAVE ENTRY IN EXCEPTIONAL CLEARANCE DATE IF  
CLEARED EXCEPTIONALLY IS "N"**

Administrative Segments (Segment 10) submitted with a Segment Action Type of "M" = Modify with an "N" = Not Applicable in Data Element 4 (Exceptional Clearance Indicator) cannot have an entry in Data Element 5 (Exceptional Clearance Date).

11067

**DATE CANNOT BE BLANK FOR SEGMENT**

**Administrative Segments (Segment 10) submitted with a Segment Action Type of "M" = Modify for a previously submitted "W" = Time-Window Submission must have a date in Data Element # 5 (Exceptional Clearance Date).**

11069

**TIME-WINDOW SEGMENT BEING MODIFIED MUST HAVE LOUISIANA REVISED STATUE NUMBER**

Administrative Modification Segments (Segment 11) submitted with a Segment Action Type of "M" = Modify for a previously submitted "W" = Time-Window Submission must have at least one LRS Number in the Window Offense Code section (Positions 25 - 36 in Segment 11 position).

11070

**INCIDENT DATE CANNOT BE AFTER [yyyy] AND MONTH [mm] OF TAPE**

Data Element 3 (Incident Date/Hour) date was later than the year and month that the magnetic media represents. For example, the May, 1995 magnetic media cannot contain incidents happening later than this date.

11071

**INCIDENT DATE IS OUTSIDE THE BASE DATE CALCULATION**

An Incident Report was submitted with a date entered into Data Element 3 (Incident Date/Hour) that is earlier than January 1 of the previous year, using the "Month of Tape" and "Year of Tape" as a reference point.

For example, if the "Month of Tape" and "Year of Tape" contains a value of "01/1996," but the incident date is 12/25/1994, the incident will be rejected.

Note: The exception is when an exceptional clearance is being submitted with a Segment Action Type of "W" = Time-Window Submission. The incident date may be any "past" date, but cannot be any earlier than January 1, 1950.

11072

**INCIDENT DATE/HOUR FOR "I" RECORDS CANNOT PREDATE  
01/01/1991**

Data Element 3 (Incident Date/Hour) cannot be earlier than 01/01/1991. This is applied to all "I" = Incident Report submissions. This beginning date will eliminate dates that are known to be obviously incorrect since LIBRS(FBI) began accepting data on this date.

11073

**INCIDENT DATE CANNOT BE BEFORE DATE ORI WENT IBR**

An Incident Report was submitted with Data Element 3 (Incident Date/Hour) containing a date that occurred before the agency converted over to LIBRS. Because of this, the record was rejected.

When an agency converts from Summary reporting to Incident Based Reporting (IBR) or commences to report LIBRS data, no data regarding an incident previously submitted under the Summary reporting system can be submitted with an incident date later than the date the agency commenced reporting, otherwise it will be regarded as a duplicate submission and be rejected.

**In other words, if the agency sends IBR data for the first time on September 1995, monthly submittal, dates for incidents, recovered property, and arrests must be within September. The exception is when exceptional clearances occur for a pre-IBR incident. In this case, Data Element 3 (Incident Date/Hour) may be earlier than September 1995, but Data Element 5 (Exceptional Clearance Date) must be within September 1995. The State will reject data submitted for prior months.**

**Thereafter, all data coming from this agency must have dates subsequent to the initial start date of September 1995, except as mentioned previously. The summary system already contains aggregate data for the months prior to LIBRS conversion. Having the State accept LIBRS data for months previously reported as "Summary Data" would cause duplicate reporting within a month.**

The State will maintain a table of start dates (base dates) for each local agency. Except for the above example, the State will reject data submitted with an Incident Date for months prior to the agency's start date.

**11074                    EXCEPTIONAL CLEARANCE DATE PREDATES DATE ORI WENT IBR  
[mmdyyy]**

Administrative Segments (Segment 10) submitted with a Segment Action Type of "W" = Time-Window Submission or "M" = Modify cannot have a date earlier than when the ORI converted to Incident-Based Reporting (IBR). Data Element 5 (Exceptional Clearance Date) was earlier.

**11075                    CANNOT CALCULATE BASE DATE FROM INCIDENT DATE  
[mmdyyy]**

The **Submission Date(C3)**, and the incident date must be valid entries. The state software uses these to determine if the complete incident should have been reported to the state, or if a subset of the segments should have been submitted as "Time- Window" submissions.

**11076                    INCIDENT DATE FOR WINDOW RECORDS CANNOT BE WITHIN  
BOUNDARIES OF THE INCIDENT**

Administrative Segments (Segment 10) submitted with a Segment Action Type of "W" = Time-Window Submission cannot have a date in Data Element 3 (Incident Date/Hour) which would be a valid date for an Incident. For any subsequent "M" = Modify of a previously submitted "W" = Time-Window Submission, this is also true.

Data Element 10 (Number of Premises Entered) was not a numeric entry of 01-99.

12004

#### **INVALID DATA VALUE -- NOT ON LIBRS VALIDATION TABLE**

The data within the referenced data element contains a value that is not specified within LIBRS Code Table.

12006

#### **ERROR - DUPLICATE VALUE =[value]**

The data element in error is one that contains multiple data values. When more than one code is entered, none can be duplicate codes.

12007

#### **ERROR - MUTUALLY EXCLUSIVE VALUE=[value]**

The data element in error can have multiple data values and was entered with multiple values. However, the entry shown between the brackets in [value] above cannot be entered with any other data value.

12015

#### **CANNOT HAVE EMBEDDED "BLANKS" BETWEEN FIRST AND LAST NON-BLANK CHARACTERS**

Data Element 2 (Incident Number) contained embedded blanks between the first and last significant characters.

12016

#### **MUST BE LEFT-JUSTIFIED -- BLANK DETECTED IN FIRST POSITION**

Data Element 2 (Incident Number) must be left-justified with blank right-fill. Since the number is less than 12 characters, it must begin in position 1; one or more blanks were entered starting in position 1 followed by the data.

**12017**

**CANNOT HAVE CHARACTERS OTHER THAN A-Z, 0-9, HYPHEN, AND/OR BLANKS**

Data Element 2 (Incident Number) can only have character combinations of A-Z, 0-9, Hyphen, and/or Blanks. For example, 89-123-SC is valid, but 89+123\*SC is invalid.

**12019**

**DATA CAN ONLY BE ENTERED FOR SPECIFIC OFFENSES**

Data Element 12 (Type Criminal Activity) codes of "B", "C", "D", "E", "I", "O", "P", "T", "U", or "X" can only be entered when Offense Code is:

"11A" = Forcible Rape  
"11B" = Forcible Sodomy  
"11C" = Sexual Assault With An Object  
"11D" = Forcible Fondling  
"120" = Robbery  
"13A" = Aggravated Assault  
"13B" = Simple Assault  
"210" = Extortion  
"520" = Weapon Law Violations

**12051                    INVALID CODE**

Data Element 7 (Offense Attempted/Completed) must be a valid code of A or C.

**12052                    OFFENSE CODE MUST BE BURGLARY WITH A LOCATION TYPE OF 14 OR 19 FOR DATA TO BE ENTERED**

When Data Element 10 (Number of Premises Entered) is entered, Data Element 9 (Location Type) must be "14" = Hotel/Motel/Etc. or "19" = Rental Storage Facility, and Data Element 6 (LRS Offense Code) must be "220" (Burglary).

**12053                    MUST BE PRESENT WHEN OFFENSE CODE IS 220**

Data Element 11 (Method of Entry) was not entered, and must be entered when Offense Code of "220" = Burglary is entered.

**12054                    MUST BE BLANK WHEN OFFENSE IS OTHER THAN BURGLARY**

Data Element 11 (Method of Entry) only applies to Offense Code of "220" = Burglary. Since a Burglary offense was not entered, the "Method of Entry" should not have been entered.

**12055                    AUTOMATIC INDICATOR MUST BE BLANK OR "A"**

In Data Element 13 (Type of Weapon/Force Involved), the third character must be "A" = Automatic or blank. In this case, a value other than the two mentioned was entered.

**12056                    OFFENSE CODES OF 09A, 09B, 09C, 13A, 13B, AND 13C MUST HAVE ENTRY OF "C"**

**Data Element 7 (Offense Attempted/Completed) code must be "C" = Completed if Data Element 6 (LRS Offense Code) is an "Assault" or "Homicide."**

**12057                    MUST BE PRESENT WITH AN OFFENSE CODE OF 220 AND A LOCATION TYPE OF 14 OR 19**

Data Element 10 (Number of Premises Entered) must be entered if offense code is "220" (Burglary) and if Data Element 9 (Location Type) contains "14" = Hotel/Motel/Etc. or "19" = Rental Storage Facility.

**12058                    WEAPON TYPE MUST = 11, 12, 13, 14, OR 15 FOR AN "A" IN THE AUTO INDICATOR**

In Data Element 13 (Type of Weapon/Force Involved),"A" = Automatic was the third character of code. It is valid only with codes:

- "11" = Firearm (Type Not Stated)
- "12" = Handgun
- "13" = Rifle
- "14" = Shotgun
- "15" = Other Firearm

A weapon code other than those mentioned was entered with the "automatic" indicator. An automatic weapon is, by definition, a firearm.

**12065                    INVALID WEAPON [weapon-code] WITH AN OFFENSE OF SIMPLE ASSAULT (13B)**

An Offense Segment (Segment 20) was submitted for "13B" = Simple Assault. Accordingly, Data Element 13 (Type Weapon/Force Involved) can only have codes of "40" = Personal Weapons, "90" = Other, "95" = Unknown, and "99" = None. All other codes are not valid because they do not relate to a simple assault.

**12066 NO OTHER OFFENSE CAN BE SUBMITTED WITH A JUSTIFIABLE HOMICIDE (09C) OFFENSE**

When a Justifiable Homicide is reported, no other offense may be reported in the Incident Report. These would be submitted on another Incident Report.

**12067 INVALID WEAPON [weapon-code] WITH AN OFFENSE OF [offense]**

The homicide offense shown within the error message must have a code in Data Element 13 (Type Weapon/Force Involved) other than "99" = None. In this case, "None" was entered. Some type of weapon/force must be used in a homicide offense.

**12069 POSSIBLE CLASSIFICATION ERROR OF AGGRAVATED ASSAULT "13A" CODED AS SIMPLE "13B"**

**A Simple Assault (13B) was submitted but Data Element 13 (Type Weapon/Force Involved) had a weapon code reflecting an Aggravated Assault (13A) offense. Either the wrong weapon code was entered or the offense should have been classified as an Aggravated Assault (13A).**

**13001                                  MUST BE PRESENT -- MANDATORY FIELD**

The data field must be entered; it is required.

13002

**CONTAINS NONNUMERIC ENTRY**

Must be numeric entry with zero or blank left-fill and right-fill..

If Data Element 21 (Estimated Quantity) had the error, note that any decimal fractional quantity must be expressed in thousandths as three numeric digits. If no fractional quantity was involved, then all zeroes would be entered.

13004

**INVALID DATA VALUE -- NOT ON LIBRS VALIDATION TABLE**

The data within the referenced data element contains a value that is not specified within the LIBRS Code Table.

13005

**DATE ENTERED MUST BE A VALID CALENDAR DATE**

Data Element 17 (Date Recovered) date components must be valid; that is, months must be 01-12, days must be 01-31, and year must include the century (i.e., 19xx, 20xx). In addition, days cannot exceed maximum for the month (e.g., June cannot have 31 days). Also, the date cannot be earlier than Data Element 3 (Incident Date/Hour).

The date cannot be later than that entered within the "Month of Tape" and "Year of Tape" fields on the data record. For example, if "Month of Tape" and "Year of Tape" are "09/1995," the date entered cannot be 07/01/1995 or greater.

The error message will pinpoint what error occurred. For example, DAT11: MONTH EXCEEDS 12 and DAT14: DAY EXCEEDS 31 are some of the "date" error messages that are displayed.

13006

**ERROR - DUPLICATE VALUE=[value]**

The data element in error is one that contains multiple data values. When more than one code is entered, none can be duplicate codes.

If more than one code is entered in Data Element 20 (Suspected Drug Type), the same code cannot be entered within the same "type measurement" category. In other words, cocaine cannot be reported in grams and pounds (same weight category), but could be reported in grams and liters (weight and capacity categories).

For the drug type "U" = Unknown, this does not apply; "U" = Unknown can be entered once.

**13007**

Data Element 17 (Date Recovered) cannot be earlier than Data Element 3 (Incident Date/Hour).

**13008**

Date Recovered (Data Element 17) cannot be after Submission Date (Data Element C3).

Data Element 2 (Incident Number) contained embedded blanks between the first and last significant characters.

**13016**

**MUST BE LEFT-JUSTIFIED -- BLANK DETECTED IN FIRST POSITION**

Data Element 2 (Incident Number) must be left-justified with blank right-fill. Since the number is less than 12 characters, it must begin in position 1; one or more blanks were entered starting in position 1 followed by the data.

**13017**

**CANNOT HAVE CHARACTERS OTHER THAN A-Z, 0-9, HYPHEN, AND/OR BLANKS**

Data Element 2 (Incident Number) can only have character combinations of A-Z, 0-9, Hyphen, and/or Blanks. For example, 95-123-SC is valid, but 95+123\*SC is invalid.

**13019**

**RECOVERED DATE CANNOT PREDATE BASE DATE**

Property Segments (Segment **31**) submitted with a Segment Action Type of "W" = Time-Window Submission cannot have a Date Recovered (Data Element 17) before the date which is calculated using the base date technique (January 1 of the year prior to the current year, or earlier than the date the agency converted to IBR). For any subsequent "M" = Modify of a previously submitted "W" = Time-Window Submission, this also applies.

**13021 JUSTIFIABLE HOMICIDE IS NOT A VALID WINDOW OFFENSE CODE**  
Property Segments (Segments **30, 31, or 32**) submitted with a Segment Action Type of "W" = Time-Window Submission cannot have a Window Offense Code (Data Element 6) of "09C" = Justifiable Homicide. **13042 WARNING - PROPERTY DESCRIPTION (DATA ELEMENT 15) HAD VALUE (DATA ELEMENT 16) THAT EXCEEDED THRESHOLD OF [\$ value]**

This is a warning message only.

Data Element 16 (Value of Property) contained a value that exceeded assigned threshold amount. The participant should check to see if the value entered was a data entry error, or if it is correct. In addition to various thresholds assigned to particular property descriptions, a warning message is always produced when the value is \$1,000,000 or greater.

For example, if the value of property was \$12,000.99 but was inadvertently entered as \$1,200,099 in the computer record sent to the State, a "warning" message is generated. In this case, the cents were entered as whole dollars.

**13043 WARNING - "280" OFFENSE HAS "RECOVERED" VEHICLE BUT "240" DOESN'T SHOW "STOLEN"**

This is a warning message only.

This warning is generated when a "280" Stolen Property Offense and a "240" Motor Vehicle Theft are submitted that contain questionable property reporting. When the incident contains a "recovered" vehicle but does not also have a "stolen" vehicle, this warning message is created. The incident should be reviewed and if there was indeed a "stolen" vehicle, the incident should be resubmitted reflecting both "stolen" and "recovered" vehicles.

**13051 PROPERTY VALUE OF ZERO IS NOT ALLOWED**

Data Element 16 (Value of Property) had a value of zero entered for dependent code in Data Element 15 (Property Description); zero value cannot be entered for this property description. If value is unknown, enter a value of "1" dollar; otherwise, the value of the property must be entered for the code.

Zero values **must be entered for:**

"09" = Credit/Debit Cards  
"22" = Nonnegotiable Instruments

Zero values are optional for:

"77" = Other  
"99" = (special category)

**13052 DATA ELEMENTS 15 - 22 MUST BE BLANK WHEN PROPERTY LOSS CODE = 1 OR 8**

When this error occurs, data was found in one or more of the referenced data elements. These data elements must be blank based on other data element values that prohibit data being entered in these data elements.

For example, if Data Element 14 (Type Property Loss/Etc.) is "8" = Unknown, Data Elements 15-22 must be blank. If it is "1" = None and offense is "35A", then Data Elements 15-19 and 21-22 must be blank. If it is "1" = None and offense is not "35A," then Data Elements 15-22 must be blank.

**13053 PENDING INVENTORY MUST HAVE PROPERTY VALUE OF "1"**

Data Element 15 (Property Description) was "88" = Pending Inventory, but Data Element 16 (Value of Property) was not "1" dollar. Determine which of the data elements was entered incorrectly.

Data Element 14 (Type Property Loss/Etc.) must be "5" = Recovered for Data Element 17 (Date Recovered) to be entered.

**13056                    PROPERTY DESCRIPTION (DATA ELEMENT 15) AND VALUE (DATA

**PROPERTY LOSS (14) MUST BE 5 WITH A MOTOR VEHICLE THEFT OFFENSE CODE OR LRS = 14:67 OR 14:68 WITH PROPERTY DESCRIPTION CODES OF "03", "05", "24, 28, OR "37" FOR DATA TO BE ENTERED**

Data Element 19 (Number of Recovered Motor Vehicles) was entered. However, Data Element 14 (Type Property Loss/Etc.) "5" = Recovered was not entered, and/or Data Element 6 (LRS Offense Code) of "240" = Motor Vehicle Theft or **LRS = 14:67 or 14:68 with Property Description Codes (Data Element 15) of "03", "05", "24, 28, or "37"** was not entered, and/or Data Element 7 (Offense Attempted/Completed) was **"A" = Attempted.**

13061

**DATA MUST EXIST WITH A MOTOR VEHICLE THEFT OFFENSE CODE OR LRS = 14:67 OR 14:68 WITH PROPERTY DESCRIPTION CODES OF "03", "05", "24, 28, OR "37" AND A PROPERTY LOSS OF 5**

Entry must be made for Data Element 19 (Number of Recovered Motor Vehicles) when Data Element 6 (LRS Offense Code) is "240" = Motor Vehicle Theft or **LRS = 14:67 or 14:68 with Property**

**Description Codes (Data Element 15) of "03", "05", "24, 28, or "37", Data Element 7 (Offense Attempted/Completed) is "C" = Completed, Data Element 14 (Type Property Loss/Etc.) is "5" = Recovered, and vehicle codes were recovered.**

**13064**

**WITH DATA ENTERED QUANTITY (DATA ELEMENT 21), MEASUREMENT (DATA ELEMENT 22), AND VALUE (DATA ELEMENT 16) MUST BE PRESENT**

When Data Element 6 (LRS Offense Code) is "35A" = Drug/Narcotic Violations, 14 (Type Property Loss/Etc.) is "6" = Seized, 15 (Type Property Loss/Etc.) is "10" = Drugs, and Data Element 20 (Suspected Drug Type) are entered, Data Element 21 (Estimated Quantity), Data Element 22 (Type Measurement) and Data Element 16 (Value of Property) must be entered.

**13065**

**OFFENSE = 35A AND PROPERTY LOSS = 6 AND PROPERTY DESCRIPTION = 10 MUST EXIST**

Data Element 20 (Suspected Drug Type) was entered, but one or more required data elements were not entered. Data Element 6 (LRS Offense Code) must be "35A" = Drug/Narcotic Violations, Data Element 14 (Type Property Loss/Etc.) must be "6" = Seized, and Data Element 15 (Property Description) must be "10" = Drug/Narcotics.

There could be multiple underlying reasons causing this error to be detected. One of them might be that Data Element 20 (Suspected Drug Type) was entered by mistake. Perhaps the code entered in Data Element 15 (Property Description) should have been "01" = Aircraft, but by entering it as "10" = Drugs/Narcotic, someone thought that Data Element 20 must be entered, etc.

**13066**

**WITH DATA ENTERED DRUG TYPE (DATA ELEMENT 20), TYPE MEASUREMENT (DATA ELEMENT 22), AND VALUE (DATA ELEMENT 16) MUST BE PRESENT**

Data Element 21 (Estimated Quantity) was entered, but Data Element 20 (Suspected Drug Type) and/or Data Element 22 (Type Measurement) and/or Data Element 16 (Value of Property) were not entered; all must be entered.

13067

**DRUG TYPE MUST BE "E," "G," OR "K" FOR A VALUE OF "NP"**

Data Element 22 (Type Measurement) was entered with "NP" in combination with an illogical drug type. Based upon the various ways a drug can be measured, very few edits can be done to check for illogical combinations of drug type and measurement. The only restriction will be to limit "NP" = Number of Plants to the following drugs:

<u>DRUG</u>	<u>MEASUREMENT</u>
E=Marijuana	NP
G=Opium	NP
K=Other Hallucinogens	NP

All other Data Element 22 (Type Measurement) codes are applicable to any Data Element 20 (Suspected Drug Type) code.

13068

**WITH DATA ENTERED DRUG TYPE (DATA ELEMENT 20), QUANTITY (DATA ELEMENT 21), AND VALUE (DATA ELEMENT 16) MUST BE PRESENT**

Data Element 22 (Type Measurement) was entered, but Data Element 20 (Suspected Drug Type), Data Element 21 (Estimated Quantity) and/or Data Element 16 (Value of Property) were not entered; all must be entered.

13070

**MUST HAVE AN ENTRY WITH AN ACTION TYPE OF "W"(WINDOW)**

Property **Modification** Segment (**Segment 32**) submitted with a Segment Action Type of "W" = Time-Window Submission or "M" = Modify must have a LRS Offense Code entered in positions **25 - 36**.

13071

**GAMBLING, KIDNAPPING, AND CRIMES AGAINST PROPERTY ARE THE ONLY VALID OFFENSES**

A Segment Action Type of "W" = Time-Window Submission or "M" = Modify was submitted for "Recovered Property" on a Property Modification Segment (**Segment 32**). When submitted, all associated offense codes must be "Crimes Against Property,"

Kidnapping, or Gambling. In this instance, offense codes other than those mentioned were submitted.

**13072 DATA ELEMENTS 15-22 WERE ALL BLANK WITH THIS PROPERTY LOSS CODE**

If Data Element 14 (Type Property/Loss/Etc.) is "2" =Burned, "3" = Counterfeited/Forged, "4" = Destroyed/Damaged/Vandalized, "5" = Recovered, "6" = Seized, or "7" = Stolen/Etc., Data Elements 15-22 must have applicable entries in the segment.

**13075 MANDATORY FIELD WITH THE PROPERTY LOSS CODE ENTERED**

At least one Data Element 15 (Property Description) code must be entered when Data Element 14 (Type Property Loss/Etc.) contains Property Segments(s) for:

- "2" = Burned
- "3" = Counterfeited/Forged
- "4" = Destroyed/Damaged/Vandalized
- "5" = Recovered
- "6" = Seized
- "7" = Stolen/Etc.

**13076 DUPLICATE PROPERTY SEGMENT ON MAGNETIC MEDIA (TYPE LOSS = [loss-code])**

When an Incident Report is submitted, the individual segments comprising the incident cannot contain duplicates. In this case, two property segments were submitted having the same entry in Data Element 14 (Type Property Loss/Etc.).

**13077 PROPERTY SEGMENT A-O-F ADDED ON [mmddyyyy] RECOVERY DATE=[mmddyyyy]**

A Property Modification Segment (Segment 32) was submitted with a Segment Action Type of "W" = Time-Window Submission that was already on the State's data base. Since the record was Already-On-File (AOF), it cannot be added again in this manner. Either delete and resubmit, or submit as a modify.

**13078                    ATTEMPT TO ADD OTHER THAN "RECOVERED" PROPERTY IS NOT ALLOWED**

A Segment Action Type of "W" = Time-Window Submission or "M" = Modify was submitted for a Property Segment (Segment 30). Accordingly, Data Element 14 (Type Property Loss/Etc.) must be

"5" = Recovered. In this instance, a code other than "5" = Recovered was submitted.

**13079                    ATTEMPT TO MODIFY OTHER THAN "RECOVERED" PROPERTY IS NOT ALLOWED**

Property Segment (**Segment 31**) submitted with a Segment Action Type of "M" = Modify must contain a "5" = Recovered in Data Element 14 (Type Property Loss/Etc.).

**13080                    CANNOT MODIFY PROPERTY -- ADDED [mmddyyyy] DATA ELEMENT 3 = [mmddyyyy]**

Property Segments (**Segment 32**) submitted with a Segment Action Type of "M" = Modify can only modify a Property Segment that was previously submitted as a "W" = Time-Window Submission.

**13081                    CANNOT DELETE PROPERTY -- ADDED [mmddyyyy] DATA ELEMENT 3 = [mmddyyyy]**

Property Segments (Segment 30) submitted with a Segment Action Type of "D" = Delete can only delete a Property Segment that was previously submitted as a "W" = Time-Window Submission.

**13084                    WITH A MEASUREMENT OF "XX" (NOT REPORTED) DRUG QUANTITY MUST = 1**

Data Element 21 (Estimated Quantity) did not have a value of "1" where "XX" = Not Reported was entered for Data Element 22 (Type Measurement). Submission of a "Not Reported" indication requires that a value of "1" also be submitted as a quality assurance check. Once the Type Measurement has been determined, a resubmission of the Incident Report would be done containing the completed data.

13087

**WITH A PROPERTY LOSS = 6 AND ONLY OFFENSE 35A CANNOT HAVE DESCRIPTION 11**

**OR**

**WITH A PROPERTY LOSS = 6 AND ONLY OFFENSE 35B CANNOT HAVE DESCRIPTION 10**

To ensure that 35A-35B Drug/Narcotic Offenses are properly reported, Data Element 15 (Property Description) of "11" = Drug Narcotic Equipment is not allowed with only a 35A Drug/Narcotic Violation.

Similarly, "10" = Drug/Narcotics is not allowed with only a 35B Drug Equipment Violation.

However, in multiple "Crimes Against Property" offenses where one offense is a 35A Drug/Narcotic violation and the other is, a 120 Robbery that involves "11" = Drug/Narcotic Equipment, it can be entered. In this case, the above edit will be bypassed. Similarly, "10" = Drugs/Narcotics can be entered along with a 35B Drug Equipment Violation as long as that property is involved in the 120 Robbery.

13088

**NUMBER STOLEN IS LESS THAN NUMBER OF VEHICLES CODES**

More than one vehicle code was entered in Data Element 15 (Property Description), but the number stolen in Data Element 18 (Number of Stolen Motor Vehicles) was less than this number. For example, if vehicle codes of "03" = Automobiles and "05" = Buses were entered as being stolen, then the number stolen must be at least 2, unless the number stolen was unknown ("00").

13089

**NUMBER RECOVERED IS LESS THAN NUMBER OF VEHICLE CODES**

More than one vehicle code was entered in Data Element 15 (Property Description), but the number recovered in Data Element 19 (Number of Recovered Motor Vehicles) was less than this number. For example, if vehicle codes of "03" = Automobiles and "05" = Buses were entered as being recovered, then the number recovered must be at least 2, unless the number recovered was unknown ("00").

13090

**ILLOGICAL PROPERTY DESCRIPTION FOR THE OFFENSE(S)  
SUBMITTED**

A property code was entered in Data Element 15 (Property Description) that was illogical for the property offense. Either the offense was classified incorrectly in Data Element 6 (LRS Offense Code) or the wrong property description code was entered. For example, "18" = Livestock would be an illogical object of a Larceny/Pocket-Picking offense.

Property offenses identified below cannot have illogical property descriptions for stolen and/or recovered property. This includes "Window" submissions of recovered property. When the offense has fewer "allowable" values than "not allowed," the allowable values are shown instead. These are indicated by "YES" or "NO" under the "Allowed" column. If multiple property offenses are submitted in an incident and one or more property offenses not listed below are present (e.g., embezzlement, etc.), then this edit is bypassed.

**PROPERTY VALUE MUST BE ZERO FOR DESCRIPTION [property description code]**

Data Element 15 (Property Description) has a code that requires a zero value in Data Element 16 (Value of Property). Either the wrong property description code was entered or the property value was not entered.

This edit was formerly error number 13040, a warning message. It is now a fatal error.

13092

**"35A" OFFENSE ENTERED AND "1 = NONE" ENTERED; MISSING SUSPECTED DRUG TYPE (20)**

An offense of "35A Drug/Narcotic Violations" and Data Element 14 (Type Property Loss/Etc.) with "1" = None were entered, but Data Element 20 (Suspected Drug Type) was not submitted. **Since a drug seizure did not occur, the suspected drug type must also be entered.**

This edit was formerly error number 13041, a warning message. It is now a fatal error.

RELEASE 2.1

**ERROR  
NUMBER**

**MESSAGE**

**14001**

**MUST BE PRESENT -- MANDATORY FIELD**

The data field must be entered; it is required.

**14002**

**CONTAINS NONNUMERIC ENTRY**

Data Element 36 (Offender Sequence Number) must contain numeric entry (000 through 999) with zero left-fill.

**14004**

**INVALID DATA VALUE -- NOT ON LIBRS VALIDATION TABLE**

The data within the referenced data element contains a value that is not specified within LIBRS Code Table.

**14008**

**EXACT AGE MUST BE IN FIRST TWO POSITIONS**

Data Element 37 (Age of Offender) contained data but was not left-justified. A single 2-character age must be in positions 1-2 of the field.

**14009**

**ESTIMATED AGE MUST HAVE "E" IN LAST POSITION**

Data Element 37 (Age of Offender) must contain 2 numeric digits, and have a trailing "E" if Age is Estimated

**14015**

**CANNOT HAVE EMBEDDED "BLANKS" BETWEEN FIRST AND LAST NON-BLANK CHARACTERS**

Data Element 2 (Incident Number) contained embedded blanks between the first and last significant characters.

**14016**

**MUST BE LEFT-JUSTIFIED -- BLANK DETECTED IN FIRST POSITION**

Data Element 2 (Incident Number) must be left-justified with blank right-fill. Since the number is less than 12 characters, it must begin

in position 1; one or more blanks were entered starting in position 1 followed by the data.

**14017 CANNOT HAVE CHARACTERS OTHER THAN A-Z, 0-9, HYPHEN, AND/OR BLANKS**

Data Element 2 (Incident Number) can only have character combinations of A-Z, 0-9, hyphen, and/or Blanks. For example, 89-123-SC is valid, but 89+123\*SC is invalid.

**14022 ESTIMATED AGE CANNOT BE "00" UNKNOWN AND HAVE A TRAILING "E".**

Data Element 37(Age of Offender) was entered. Therefore, Estimated age cannot be "00" = unknown and have a trailing "E".

**14050 OFFENDER IS SPOUSE, BUT AGE IS LESS THAN 10**

Data Element 35 (Relationship of Victim to Offender) contained a relationship of "SE" = Spouse. When this is so, the age of the offender cannot be less than 10 years.

**14051 DUPLICATE OFFENDER SEGMENT ON TAPE**

**When an Incident Report is submitted, the individual segments comprising the incident cannot contain duplicates. In this case, 2 Offender Segments were submitted having the same entry in Data Element 36 (Offender Sequence Number).**

**14052 CANNOT BE PRESENT WHEN OFFENDER NUMBER IS "000" UNKNOWN**

Data Element 37 (Age of Offender), Data Element 38 (Sex of Offender), and Data Element 39 (Race of Offender) cannot be entered when Data Element 36 (Offender Sequence Number) is "000" = Unknown.

**14053 SEX OF VICTIM AND OFFENDER DOES NOT REFLECT THE RELATIONSHIP**

Data Element 35 (Relationship of Victim to Offender) had a relationship that was inconsistent with the offender's sex. The sex of the victim and/or offender must reflect the implied relationship. For example, if the relationship of the victim to offender was "SE" = Spouse, then the victim's sex cannot be the same as the offender's sex.

The following relationships must reflect either the "Same" or "Different" sex codes depending upon this relationship:

<u>Relationship</u>	<u>Sex Code</u>
XS = <u>Victim was Ex-Spouse</u>	Different
SE = <u>Victim was Spouse</u>	Different
CS = <u>Victim was Common-Law Spouse</u>	Different
ES = <u>Victim was Estranged Spouse</u>	Different
HR = <u>Homosexual</u>	Same
VO = <u>Victim was Offender</u>	Same
BG = <u>Victim was Boyfriend/ Girlfriend</u>	Different
<b><u>XB = Victim was Ex-Boyfriend/Girlfriend</u></b>	<b>Different</b>
NM = <u>Non-Married Live-In</u>	Different

14054

**AGE OF VICTIM AND OFFENDER DOES NOT REFLECT THE RELATIONSHIP**

Data Element 35 (Relationship of Victim to Offender) had a relationship that was inconsistent with the offender's age. The age of the victim and/or offender must reflect the implied relationship. For example, if the relationship of the victim to offender was "PA" = Parent, then the victim's age must be greater than the offender's age.

The following relationships must be consistent with the Victim's age in relation to the Offender's age:

<u>Relationship</u>	<u>Victim's Age Is</u>
CH = <u>Victim was Child</u>	Younger
PA = <u>Victim was Parent</u>	Older
GP = <u>Victim was Grandparent</u>	Older
GC = <u>Victim was Grandchild</u>	Younger
VO = <u>Victim was Offender</u>	Same Age
BE = <u>Victim was Babysittee</u> (the baby)	Younger

SE = <u>Victim was Spouse</u>	At least 10 yrs.
ES = <u>Victim was Estranged Spouse</u>	At least 10 yrs.
CS = <u>Victim was Common-Law Spouse</u>	At least 10 yrs.
XS = <u>Victim was Ex-Spouse</u>	At least 10 yrs.
NM = <u>Victim was Non-Married Live-In</u>	At least 10 yrs.

**14055 OFFENDER "000" EXISTS -- CANNOT SUBMIT MORE OFFENDERS**

When multiple Offender Segments are submitted, none can contain a "000" = Unknown value because the presence of "000" indicates that the number of offenders was unknown. In this case, multiple offenders were submitted but one of the segments contained the "000" = Unknown value.

**14056 OFFENDER EXACT AGE MUST BE NUMERIC DIGITS**

Data Element 37 (Age of Offender) must contain numeric entry of 00 - 99.

**14057 OFFENDER SEQUENCE NUMBER CANNOT BE UNKNOWN IF INCIDENT CLEARED EXCEPTIONALLY**

Data Element 36 (Offender Sequence Number) contained "000" that indicates that nothing was known about the offender(s) regarding number and any identifying information. In order to exceptionally clear the incident, the value cannot be "000."

The incident was submitted with Data Element 4 (Cleared Exceptionally) **having a valid entry**.

**14058 AT LEAST ONE OFFENDER MUST HAVE KNOWN VALUES**

None of the Offender Segments contained all "known" values for AGE, SEX, and RACE. When an Incident is cleared exceptionally (Data Element 4 **contains a valid entry**), one offender must have all known values.

**14059 OFFENDER DATA MUST BE PRESENT IF OFFENSE CODE IS 09C, JUSTIFIABLE HOMICIDE**

The incident was submitted with Data Element 6 (LRS Offense Code) value of "09C" = Justifiable Homicide, but unknown information was submitted for all the offender(s). At least one of the offenders must have "known" information for Age, Sex, and Race.

If Data Element 36 (Offender Sequence Number) contained "000" (indicating that nothing was known about the offender(s) regarding number and any identifying information), the incident is rejected because one of the offenders must have "known" values.

**14060 VICTIM'S SEX CANNOT BE SAME AS ALL OFFENDERS FOR OFFENSES OF "11A" AND "36B"**

**One or more of the offender's sex must be different from that of the victim's sex when the offense is Forcible Rape ("11A") or Statutory Rape ("36B). Either the offense should be something else or maybe the sex code of either the victim or the offender(s) was entered incorrectly.**

**14061 SEGMENT 41 (OFFENDER USING) SEGMENT MISSING; OR, NO SEGMENT 41 TO MATCH EXISTING SEGMENT 40**

**14070 BIAS MOTIVATION = 99 REQUIRES THAT AN OFFENDER AGE BE ENTERED. AT LEAST ONE OFFENDER MUST BE COMPLETELY KNOWN**

## VICTIM SEGMENT ERRORS

### ERROR NUMBER

### MESSAGE

15001

**MUST BE PRESENT -- MANDATORY FIELD**

The data field must be entered; it is required.

15002

**CONTAINS NONNUMERIC ENTRY**

Must contain numeric entry with zero left-fill.

15003

**MISSING VICTIM INJURY SEGMENT (SEGMENT 51)**

15004

**INVALID DATA VALUE -- NOT ON LIBRS VALIDATION TABLE**

The data within the referenced data element contains a value that is not specified within LIBRS Code Table.

15005

**MISSING VICTIM/OFFENDER SEGMENT (SEGMENT 52)**

15006

**ERROR - DUPLICATE VALUE=[value]**

The data element in error is one that contains multiple data values. When more than one code is entered, none can be duplicate codes.

15007

**ERROR - MUTUALLY EXCLUSIVE VALUE=[value]**

Data Element 33 (Type Injury) can have multiple data values and was entered with multiple values. However, the entry shown between the brackets in [value] above cannot be entered with any other data values.

15008

**EXACT AGE MUST BE IN FIRST TWO POSITIONS**

Data Element 26 (Age of Victim) contained data, but was not left-justified. A single 2-character age must be in positions 1-2 of the field.

**15009 ESTIMATED AGE MUST HAVE "E" IN LAST POSITION**

Data Element 26 (Age of Victim) must be 2 numeric digits, and have a trailing "E" ,if it is Estimated.

**15015 CANNOT HAVE EMBEDDED "BLANKS" BETWEEN FIRST AND LAST NON-BLANK CHARACTERS**

Data Element 2 (Incident Number) contained embedded blanks between the first and last significant characters.

**15016 MUST BE LEFT-JUSTIFIED -- BLANK DETECTED IN FIRST POSITION**

Data Element 2 (Incident Number) must be left-justified with blank right-fill. Since the number is less than 12 characters, it must begin in position 1; one or more blanks were entered starting in position 1 followed by the data.

**15017 CANNOT HAVE CHARACTERS OTHER THAN A-Z, 0-9, HYPHEN, AND/OR BLANKS**

Data Element 2 (Incident Number) can only have character combinations of A-Z, 0-9, Hyphen, and/or Blanks. For example, 89-123-SC is valid, but 89+123\*SC is invalid.

**15019 DATA CAN ONLY BE ENTERED FOR SPECIFIC OFFENSES**

If **Data Element 31 (Aggravated Assault/Homicide Circumstances and Law Enforcement Officers Killed/Assaulted (in the line of duty) Type of Assignment)** was entered, then it can only be entered when Data Element 24 (Offense Connected to Victim Sequence Number) entry is **connected to one of the following offenses:**

"09A" = Murder and Nonnegligent Manslaughter

"09B" = Negligent Homicide

"09C" = Justifiable Homicide  
"13A" = Aggravated Assault  
**"13B" = Simple Assault (Only Simple Assaults that pertain to Assaults on Law Enforcement Officers.)**

If Data Element 33 (Type Injury) was entered, then it can only be entered when Data Element 24 (Offense Connected to Victim Sequence Number) entry is **connected to one of the following offenses:**

"100" = Kidnapping/Abduction  
"11A" = Forcible Rape  
"11B" = Forcible Sodomy  
"11C" = Sexual Assault With An Object  
"11D" = Forcible Fondling  
"120" = Robbery  
"13A" = Aggravated Assault  
"13B" = Simple Assault  
"210" = Extortion/Blackmail  
**"90Z" = Crime Against Person**

**15022 ESTIMATED AGE CANNOT BE "00" = UNKNOWN**

Data Element 26 (Age of Victim) was entered. Therefore, the estimated age cannot be "00" = Unknown and have a trailing "E".

**15050 VICTIM IS SPOUSE, BUT AGE IS LESS THAN 10**

Data Element 35 (Relationship of Victim to Offender) contained a relationship of "SE" = Spouse. When this is so, the age of the victim cannot be less than 10 years.

**15051 VICTIM NUMBER ALREADY EXISTS**

**When an Incident Report is submitted, the individual segments comprising the incident cannot contain duplicates. In this case, 2 Victim Segments were submitted having the same entry in Data Element 23 (Victim Sequence Number).**

**15053 MUST BE PRESENT WHEN VICTIM TYPE(25) = "I" or "L"**

The Data Element associated with this error must be present when Data Element 25 (Type of Victim) is "I" = Individual or "L" = **Law Enforcement Officer**.

**15055                    ADDITIONAL JUSTIFIABLE HOMICIDE IS MANDATORY WITH A "20" OR "21" ENTERED**

**Data Element 31 (Aggravated Assault/Homicide Circumstances and Law Enforcement Officers Killed/Assaulted (in the line of duty) Type of Assignment)** contained:

"20" = Criminal Killed by Private Citizen  
or  
"21" = Criminal Killed by Police Officer,

but **Data Element 32 (Additional Justifiable Homicide Circumstance and Law Enforcement Officers Killed/Assaulted (in the line of duty) Type of Activity)** was not entered.

**15056                    ONLY ONE VALUE GREATER OR EQUAL TO "10" CAN BE ENTERED**

**Data Element 31 (Aggravated Assault/Homicide Circumstances and Law Enforcement Officers Killed/Assaulted (in the line of duty) Type of Assignment)** was entered with 2 entries, but was rejected for one of the following reasons:

- 8) Value "10" = Unknown Circumstances is mutually exclusive with any other value.
- 2) More than one category (i.e., Aggravated..., Negligent..., Justifiable...) was entered.

**15057                    WHEN DATA ELEMENT 32 IS ENTERED, DATA ELEMENT 31 MUST EQUAL "20" OR "21" UNLESS TYPE OF VICTIM IS EQUAL TO "L" = LAW ENFORCEMENT OFFICER.**

**Data Element 32 (Additional Justifiable Homicide Circumstance and Law Enforcement Officers Killed/Assaulted (in the line of duty) Type of Activity)** was entered, but **Data Element 31 (Aggravated Assault/Homicide Circumstances and Law Enforcement Officers Killed/Assaulted (in the line of duty))**

**Type of Assignment)** did not reflect a "Justifiable Homicide" Circumstance.

**15058 VICTIM TYPE (DATA ELEMENT 25) MUST BE "I" OR "L" FOR DATA TO BE ENTERED**

The Data Element associated with this error cannot be entered when Data Element 25 (Type of Victim) is not "I" = Individual or "L" = **Law Enforcement Officer**.

**15059 NEED A CRIME AGAINST PERSON OR ROBBERY FOR DATA TO BE ENTERED**

Data Element 34 (Offender Numbers To Be Related) was entered but should only be entered if one or more of the offenses entered into Data Element 24 (Offense Connected to Victim Sequence Number) is connected to a "Crime Against Person" or is a Robbery Offense (120). **None of these type offenses were connected to this victim.**

**15060 RELATIONSHIP MUST BE ENTERED WHEN AN OFFENDER NUMBER (DATA ELEMENT 34) EXISTS**

Corresponding Data Element 35 (Relationship of Victim to Offender) data must be entered when Data Element 34 (Offender Numbers To Be Related) is entered with a value greater than "000."

**15061 VICTIM TYPE CANNOT EQUAL "S" WITH AN OFFENSE OF 220**

Data Element 25 (Type of Victim) cannot have a value of "S" = Society/Public when the offense is "220" = Burglary/Breaking and Entering.

**15062 INVALID AGGRAVATED ASSAULT/HOMICIDE FOR 13A OFFENSE**

An Offense Segment (Segment 20) was submitted for "13A" = Aggravated Assault. Accordingly, **Data Element 31 (Aggravated Assault/Homicide Circumstances and Law Enforcement Officers Killed/Assaulted (in the line of duty) Type of**

**Assignment)** can only have codes of "01" through "06" and "08" through "10." All other codes, including "07" = Mercy Killing, are not valid because they do not relate to an aggravated assault.

**15063                    INVALID AGGRAVATED ASSAULT/HOMICIDE FOR 09C OFFENSE**

When a Justifiable Homicide is reported, **Data Element 31 (Aggravated Assault/Homicide Circumstances and Law Enforcement Officers Killed/Assaulted (in the line of duty) Type of Assignment)** can only have codes of "20" = Criminal Killed by Private Citizen or "21" = Criminal Killed by Police Officer. In this case, another code other than the two mentioned was entered.

**15064                    ENTRY FOR TYPE OF VICTIM MUST BE "I" OR "L" WHEN THIS OFFENSE CODE IS CONNECTED TO THIS VICTIM**

Data Element 24 (Offense Connected to Victim Sequence Number) is **connected to** a "Crime Against Person," but Data Element 25 (Type of Victim) was not "I" = Individual or "L" = **Law Enforcement Officer**.

**15065                    ENTRY FOR TYPE OF VICTIM MUST BE "S" WHEN THIS OFFENSE CODE IS CONNECTED TO THIS VICTIM**

Data Element 24 (Offense Connected to Victim Sequence Number) is **connected to** a "Crime Against Society," but Data Element 25 (Type of Victim) was not "S" = Society.

**15066                    OFFENSE MUST BE SUBMITTED AS SEGMENT 20 RECORD IF VICTIM IS CONNECTED**

Each **Victim Sequence Number** entered into Data Element 24 (Offense Connected to Victim Sequence Number) must have the **Victim Sequence Number** for the data value. In this case, the **Offense** was connected to a **Victim Sequence Number** that was not submitted. An **Offense** cannot be connected to a **Victim Sequence Number** when the **Victim Segment** is not present.

15067

**ENTRY FOR TYPE OF VICTIM CANNOT BE "S" WHEN THIS  
OFFENSE CODE IS CONNECTED TO THIS VICTIM**

Data Element 24 (Offense Connected to Victim Sequence Number) **is connected to** a "Crime Against Property," but Data Element 25 (Type of Victim) was "S" = Society. This is not an allowable code for "Crime Against Property" offenses.

15068

**RELATIONSHIP CANNOT BE ENTERED WHEN RELATED TO  
OFFENDER NUMBER "000"**

Data Element 35 (Relationship of Victim to Offender) cannot be entered when the number of offenders in Data Element 34 (Offender Number to be Related) is zero. Zero means that the number of offenders was unknown; therefore, the relationship cannot be entered.

15069

**VICTIM SEX MUST BE "M" OR "F" FOR AN 11A OR 36B OFFENSE**

**Data Element # 27 (Sex of Victim) must be "M" = Male or "F" = Female to be connected to offense codes of "11A" = Forcible Rape and "36B" = Statutory Rape.**

15070

**WHEN "VO" RELATIONSHIP IS PRESENT, MUST HAVE TWO OR  
MORE VICTIMS AND OFFENDERS**

Data Elements 35 (Relationship of Victim to Offenders) had a relationship of "VO" = Victim Was Offender. When this code is entered, a minimum of 2 victim and 2 offender segments must be submitted. In this case, only 1 victim and/or 1 offender segment was submitted.

Because "VO" was entered on one or more of the victims, this indicates situations such as brawls and domestic disputes. In the vast majority of cases, each victim is also the offender; therefore, every victim record would contain a "VO" code. However, there may be some situations where only one of the victims is also the offender, but where the other victim(s) are not also the offender(s).

15071

**ONLY ONE "VO" RELATIONSHIP PER VICTIM**

Data Element 35 (Relationship of Victim to Offenders) had relationships of "VO" = Victim Was Offender that pointed to multiple offenders, which is an impossible situation. A single victim cannot be 2 offenders.

**15072                    WHEN OFFENDER AGE/SEX/RACE ARE UNKNOWN, RELATIONSHIP MUST BE "RU" = UNKNOWN**

Data Element 35 (Relationship of Victim to Offender) had a relationship to the offender that was not logical. In this case, the offender was entered with "unknown" values for age, sex, and race. Under these circumstances, the relationship must be entered as "RU" = Relationship Unknown.

**15074                    ONLY ONE "VO" RELATIONSHIP CAN BE ASSIGNED TO A SPECIFIC OFFENDER**

Two or more Victim Segments had Data Element 35 (Relationship of Victim to Offender) with a relationship of "VO" = Victim Was Offender that pointed to the same offender.

**15075                    ONLY ONE "SE" RELATIONSHIP PER VICTIM**

**A Victim can only have one spousal relationship. In this instance, the victim has a relationship of SE = Spouse to two or more offenders.**

**15076                    ONLY ONE "SE" RELATIONSHIP CAN BE ASSIGNED TO A SPECIFIC OFFENDER**

**An Offender can only have one spousal relationship. In this instance, two or more victims have a relationship of SE = Spouse to the same offender.**

**15077                    INVALID AGGRAVATED ASSAULT/HOMICIDE CIRCUMSTANCES AND LAW ENFORCEMENT OFFICERS KILLED/ASSAULTED (IN THE LINE OF DUTY) TYPE OF ASSIGNMENT FOR THIS LRS CODE**

An **Offense Segment** was submitted with Data Element 24 (Offense Connected to Victim Sequence Number) having an offense that did not have a permitted code for **Data Element 31**

**(Aggravated Assault/Homicide Circumstances and Law Enforcement Officers Killed/Assaulted (in the line of duty) Type of Assignment).** Only those circumstances listed in LIBRS Guidelines and Specifications (Data Element and Data Values) are valid for the particular offense.

15078

## VICTIM CONNECTED TO AN INVALID COMBINATION OF OFFENSES

"Mutually Exclusive" offenses are ones that cannot occur to the same victim by UCR definitions. A "Lesser Included" offense is one that is an element of another offense and should not be reported as having happened to the victim along with the other offense. "Lesser Included" and "Mutually Exclusive" offenses are defined as follows:

A) Murder - Aggravated Assault, Simple Assault, and Intimidation are all lesser included offenses of Murder. Negligent Manslaughter is mutually exclusive.

B) Aggravated Assault - Simple Assault and Intimidation are lesser included offenses of Aggravated Assault.

Note: Aggravated Assault is a lesser included offense of Murder, Forcible Rape, Forcible Sodomy, Sexual Assault with an Object, and Robbery.

C) Simple Assault - Intimidation is a lesser included offense of Simple Assault.

Note: Simple Assault is a lesser included offense of Murder, Aggravated Assault, Forcible Rape, Forcible Sodomy, Sexual Assault with an Object, Forcible Fondling, and Robbery.

D) Intimidation - Intimidation is a lesser included offense of Murder, Aggravated Assault, Forcible Rape, Forcible Sodomy, Sexual Assault with an Object, Forcible Fondling, and Robbery.

E) Negligent Manslaughter - Aggravated Assault, Simple Assault, and Intimidation are mutually exclusive offenses. Negligent Manslaughter involves "...the killing of another person through negligence." The Assault offenses are characterized by... "unlawful attacks." Murder is mutually exclusive.

- F) Forcible Rape - Aggravated Assault, Simple Assault, Intimidation, and Forcible Fondling are lesser included offenses of Forcible Rape.

Incest and Statutory Rape are mutually exclusive offenses and cannot occur with Forcible Rape. The prior two offenses involve consent, while the latter involves forced action against the victim's will.

- G) Forcible Sodomy - Aggravated Assault, Simple Assault, Intimidation, and Forcible Fondling are lesser included offenses of Forcible Sodomy.

Incest and Statutory Rape are mutually exclusive offenses and cannot occur with Forcible Sodomy. The prior two offenses involve consent, while the latter involves forced action against the victim's will.

- H) Sexual Assault with an Object - Aggravated Assault, Simple Assault, Intimidation, and Forcible Fondling are lesser included offenses of Sexual Assault with an Object.

Incest and Statutory Rape are mutually exclusive offenses and cannot occur with Sexual Assault with an Object. The prior two offenses involve consent, while the latter involves forced action against the victim's will.

- I) Forcible Fondling - Simple Assault and Intimidation are lesser included offenses of Forcible Fondling.

Incest and Statutory Rape are mutually exclusive offenses and cannot occur with Forcible Fondling. The prior two offenses involve consent, while the latter involves forced action against the victim's will.

Note: Forcible Fondling is a lesser included offense of Forcible Rape, Forcible Sodomy, and Sexual Assault with an Object.

- J) Incest - Forcible Rape, Forcible Sodomy, Sexual Assault with an Object, and Forcible Fondling are mutually exclusive offenses. Incest involves consent, while the four above-listed offenses involve forced sexual relations against the victim's will.

- K) Statutory Rape - Forcible Rape, Forcible Sodomy, Sexual Assault with an Object, and Forcible Fondling are mutually exclusive offenses. Statutory Rape involves consent, while the four above-listed offenses involve forced sexual relations against the victim's will.
- L) Robbery - Aggravated Assault, Simple Assault, Intimidation, and all theft offenses (including Motor Vehicle Theft) are lesser included offenses of Robbery.

**15079 SIMPLE ASSAULT ("13B") CANNOT HAVE "MAJOR INJURIES"**

**A Simple Assault ("13B") was committed against a victim but the victim had major injuries/trauma entered for Data Element 33 (Type Injury). Either the offense should have been classified as an Aggravated Assault ("13A") or the victim's injury should not have been entered as major. The permissible codes for a Simple Assault ("13B") are "M" = Apparent Minor Injury and "N" = None.**

**15080 WHEN HOMICIDE/ASSAULT (DATA ELEMENT 31) IS "08," INCIDENT MUST HAVE 2 OR MORE OFFENSES**

**Data Element 31 (Aggravated Assault/Homicide Circumstances and Law Enforcement Officers Killed/Assaulted (in the line of duty) Type of Assignment) had "08" = Other Felony Involved but the incident only had one offense entered for Data Element 6 (LRS Offense Code). There must be multiple offenses involved when the circumstance code is 08.**

This edit was formerly error number 15040, a warning message. It is now a fatal error.

**15081 VICTIM'S AGE MUST BE LESS THAN [maximum for state] FOR STATUTORY RAPE ("36B")**

Among the states, the age at which a victim is considered a statutory rape victim varies. The victim's age exceeded the maximum age possible for a statutory rape in the state.

**15096 EACH VICTIM SEQUENCE NUMBER ENTERED MUST HAVE A CORRESPONDING VICTIM SEGMENT**

## ARRESTEE SEGMENT ERRORS

### ERROR NUMBER

### MESSAGE

16001

#### **MUST BE PRESENT -- MANDATORY FIELD**

The data field must be entered; it is required.

16002

#### **CONTAINS NONNUMERIC ENTRY**

Data Element 40 (Arrestee Sequence Number) must be numeric entry of 001 to 999 with zero left-fill.

16004

#### **INVALID DATA VALUE -- NOT ON LIBRS VALIDATION TABLE**

The data within the referenced data element contains a value that is not specified within LIBRS Code Table.

16005

#### **DATE ENTERED MUST BE A VALID CALENDAR DATE**

Data Element 42 (Arrest Date) date components must be valid; that is, months must be 01-12, days must be 01-31, and year must include the century (i.e., 19xx, 20xx). In addition, days cannot exceed maximum for the month (e.g., June cannot have 31 days). Also, the date cannot exceed the current date.

The date cannot be later than that entered within the "Month of Tape" and "Year of Tape" fields on the data record. For example, if "Month of Tape" and "Year of Tape" are "06/1995," the date entered cannot be 07/01/1995 or greater.

The error message will pinpoint what error occurred. For example, DAT11: MONTH EXCEEDS 12 AND DAT14: DAY EXCEEDS 31 are some of the "date" error messages that are displayed.

16006

#### **ERROR - DUPLICATE VALUE=[value]**

Data Element 46 (Arrestee Was Armed With) contains multiple data values. When more than one code is entered, none can be duplicate codes.

16007

#### **ERROR - MUTUALLY EXCLUSIVE VALUE=[value]**

Data Element 46 (Arrestee Was Armed With) can have multiple data values and was entered with multiple values. However, the entry shown between the brackets in [value] above cannot be entered with any other data value.

16008

**EXACT AGE MUST BE IN FIRST TWO POSITIONS**

Data Element 47 (Age of Arrestee) contained data, but was not left-justified. A single 2-character age must be in positions 1-2 of the field.

16009

**ESTIMATED AGE MUST HAVE "E" IN LAST POSITION**

Data Element 47 (Age of Arrestee) must be two (2) numeric digits, and have a trailing "E" = Estimated.

16015

**CANNOT HAVE EMBEDDED "BLANKS" BETWEEN FIRST AND LAST NON-BLANK CHARACTERS**

The data element in error contained embedded blanks between the first and last significant characters.

16016

**MUST BE LEFT JUSTIFIED -- BLANK DETECTED IN FIRST POSITION**

Data Element 41 (**Arrest Number/Local Booking Number for Arrest**) must be left-justified; one or more blanks were entered starting in position 1 followed by the data.

16017

**CANNOT HAVE CHARACTERS OTHER THAN A-Z, 0-9, HYPHEN AND/OR BLANKS**

Data Element 41 (**Arrest Number/Local Booking Number for Arrest**) can only have character combinations of A-Z, 0-9, Hyphen, and/or Blanks. For example, 89-123-SC is valid, but 89+123\*SC is invalid.

16020

**ARREST DATE CANNOT PREDATE BASE DATE**

Arrestee Segments (Segment 60) submitted with a Segment Action Type of "W" = Time-Window Submission cannot have Data Element 42 (Arrest Date) earlier than the Base Date.

This also applies to any subsequent "M" = Modify of a previously submitted "W" = Time-Window Submission.

16021

**JUSTIFIABLE HOMICIDE IS NOT A VALID WINDOW OFFENSE CODE**

Arrestee Segments (Level 62) submitted with a Segment Action Type of "W" = Time-Window Submission cannot have a LRS Offense Code of "09C" = Justifiable Homicide. This is because by

definition a Justifiable Homicide never involves an arrest of the offender (the person who committed the justifiable homicide).

This also applies to any subsequent "M" = Modify of a previously submitted "W" = Time-Window Submission.

**16022 ESTIMATED AGE CANNOT HAVE "00" = UNKNOWN**

**Data Element 47 (Age of Arrestee) was entered.** Therefore, the estimated age cannot be "00" = Unknown and have a trailing "E."

**16040 WARNING - NO DISPOSITION FOR POSSIBLE JUVENILE ARRESTEE**

**Data Element 52 (Disposition of Arrestee Under 17) was not entered, but Data Element 47 (Age of Arrestee) indicated an age for a juvenile. Note that when an age is entered and the age is a juvenile, then the disposition must be entered.**

**16041 WARNING - ARRESTEE HAD AN AGE OF 99 OR OLDER**

Data Element 47 (Age of Arrestee) was entered with a value of 99 which means the arrestee was over 98 years old. Verify that the submitter of data is not confusing the "99" = Over 98 Years Old with "00" = Unknown.

**16052 DISPOSITION MUST BE ENTERED WHEN AGE IS LESS THAN 17**

Data Element 52 (Disposition of Juvenile) was not entered, but Data Element 47 (Age of Arrestee) was under 17. Whenever an arrestee's age indicates a juvenile, the disposition must be entered.

**16053 FOR AGE GREATER THAN 16 DISPOSITION SHOULD NOT BE ENTERED**

Data Element 52 (Disposition of Juvenile) was entered, but Data Element 47 (Age of Arrestee) was 17 or greater. Whenever an arrestee's age indicates an adult, the juvenile disposition cannot be entered because it does not apply.

**16054 AUTOMATIC INDICATOR MUST BE BLANK OR "A"**

Data Element 46 (Arrestee Was Armed With) did not have "A" = Automatic or blank in the third position of field.

**16055 WEAPON TYPE MUST = 11, 12, 13, 14, OR 15 FOR AN "A" IN THE AUTO INDICATOR**

In Data Element 46 (Arrestee Was Armed With), "A" = Automatic was the third character of code. It is valid only with codes:

- "11" = Firearm (Type Not Stated)
- "12" = Handgun
- "13" = Rifle
- "14" = Shotgun
- "15" = Other Firearm

A weapon code other than those mentioned was entered with the "automatic" indicator. An automatic weapon is, by definition, a firearm.

**16056 THIS ARRESTEE EXCEEDED THE NUMBER OF OFFENDERS (nnn) ON THE INCIDENT**

**An Incident Report was submitted with more arrestees than offenders. The number (nnn) of offenders is shown within the message. Resubmit the incident with additional Offender Segments. This message will also occur if an arrestee was submitted and Data Element 36 (Offender Sequence Number) was "000" = unknown.**

**16057 VALID VALUES FOR WINDOW CLEARANCE INDICATOR ARE "Y" OR "N"**

Arrestee Segments (Segment 60) submitted with a Segment Action Type of "W" = Time-Window Submission must have a "Y" or "N" in the Window Clearance Indicator (**position 101 of the Segment**).

**16058 MUST BE BLANK WHEN ACTION TYPE IS NOT "W" (WINDOW)**

Arrestee Segments (Segment 60) submitted with a Segment Action Type other than "W" = Time-Window Submission must have a blank in the Window Clearance Indicator (**position 101 of this Segment**) and no Arrestee Modification Segment (63) would be submitted.

**16059 AN OFFENSE MUST EXIST WHEN ACTION TYPE = "W" (WINDOW)**

Arrestee Modification Segments (Segment 63) submitted with a Segment Action Type of "W" = Time-Window Submission must have at least one LRS Number entered in the Window Offense Code Section (positions 25 - 36).

16060

**INCIDENT REPORT NOT ON FILE**

The initial Incident Number associated with the current submission was not on the State's data base. The Arrestee Segment (Segment 60) submitted with a Segment Action Type of "A" = Add was rejected because the incident was not on the State's data base.

16061

**DUPLICATE ARRESTEE SEGMENT ON FILE -- ADDED ON [mmdyyy]**

When an Incident Report or Segment Action Type of A = Add [Arrestee] is submitted, the individual segments comprising the incident cannot contain duplicates. In this case, two arrestee segments have the same entry in Data Element 40 (Arrestee Sequence Number).

16062

**CANNOT DELETE AN ARREST WHEN INCIDENT REPORT ON FILE**

A submission was made to delete an Arrest Segment from an Incident Report currently active in the State's data base. The request was rejected because Arrestee Segments (Segment 60) submitted with a Segment Action Type of "D" = Delete must have been previously submitted as a "W" = Time-Window Submission.

For some reason the participant's computer "thinks" that the State has only "Time Window" arrest segments on file for the incident.

16063

**CANNOT MODIFY AN ARREST WHEN INCIDENT REPORT ON FILE**

A submission was made to modify an Arrest Segment on an Incident Report currently active in the State's data base. The request was rejected because Arrestee Segments (Segment 60) submitted with a Segment Action Type of "M" = Modify must have been previously submitted as a "W" = Time-Window Submission.

For some reason the participant's computer "thinks" that the State has only "Time-Window" arrest segments on file for the incident.

16064

**ARRESTEE AGE MUST BE NUMERIC DIGITS**

Data Element 47 (Age of Arrestee) did not contain a numeric entry of 00 - 99 for an exact age.

- 16065**                    **ARREST DATE CANNOT BE BEFORE THE INCIDENT START DATE**
- Data Element 42 (Arrest Date) cannot be earlier than Data Element 3 (Incident Date/Hour). A person cannot be arrested before the incident occurred.
- 
- 16067**                    **INVALID ARRESTEE SEX VALUE**
- Data Element 48 (Sex of Arrestee) did not contain a valid code of "M" = Male or "F" = Female. Note that "U" = Unknown (if entered) is not a valid sex for an arrestee.
- 
- 16068**                    **ARRESTEE RECORD PREVIOUSLY SUBMITTED WITH A "Y" IN THE CLEARANCE BYTE**
- This error involves two or more Arrestee Segments (Level 60) in the same incident, where two or more contained a "Y" in the Window Clearance Indicator (**position 101 of the Segment**). Only one of the arrests can have this indicator value of "Y."
- These were submitted as "W" = Time-Window Submission segments.
- 
- 16069**                    **NO ARRESTEE RECORDS ALLOWED FOR A JUSTIFIABLE HOMICIDE**
- Incident Reports cannot have arrests when Data Element 6 (LRS Offense Code) is "09C" = Justifiable Homicide. This is because by definition a justifiable homicide never involves an arrest of the offender (the person who committed the justifiable homicide).**
- 
- 16070**                    **JUSTIFIABLE HOMICIDE CANNOT BE AN ARREST OFFENSE CODE**
- Data Element 45 (LRS Number of Arrest) was entered with "09C" = Justifiable Homicide. This is not a valid arrest offense.
- 
- 16080**                    **SEGMENT 61 MISSING -- MUST HAVE ONE PER ARRESTEE SEGMENT (LIBRS ONLY)**
- 
- 16081**                    **SEGMENT 62 MISSING -- MUST HAVE AT LEAST ONE PER ARRESTEE SEGMENT (LIBRS ONLY)**

16099

**SEGMENT 61 IS A REQUIRED SEGMENT WHEN SEGMENT 60  
EXISTS (LIBRS ONLY)**

**SUBMISSION TRAILER SEGMENT ERRORS**

- 19901                    LAST LINE OR SEGMENT NOT 99 SEGMENT TYPE**
- 19902                    NUMBER OF SEGMENTS FIELD IN 99 SEGMENT IS NOT A VALID  
NUMERIC FIELD**
- 19903                    NUMBER OF SEGMENTS ON SUBMISSION TRAILER DOES NOT  
MATCH RECORD COUNT**

- 20027**                    **DATE OUT OF RANGE**
- 20029**                    **END OF SEGMENT MARKER, MUST BE EQUAL TO "ZZ"**  
Data Element C8(End of Segment Marker) must be equal to "ZZ".
- 20030**                    **MUST BE 3 OR GREATER**  
Data Element C7 (Number of Segments Transferred) must be 3 or greater.
- 20031**                    **MUST BE EQUAL TO THE TOTAL NUMBER OF SEGMENTS WRITTEN TO THE TAPE**  
Data Element C7( Number of Segments Transferred) must be equal to the total number of Segments written to the tape.
- 20060**                    **REPORTING PERIOD DATE CANNOT PRECEDE INCIDENT DATE**  
The state received an incident date that precedes the Reporting Period Date (Data Element C4--MM/YYYY) being submitted. This is an incident that has occurred in a future month. An incident should not be reported during a reporting period before it actually happened.
- 20200**                    **MUST CONTAIN 12 NUMERIC PLACES.**  
If Data Element L53 (Location of Incident) is entered, the field must contain 12 numeric places. No spaces are allowed.
- 22005**                    **THIS LRS CODE MUST BE SUBMITTED WITH A SUBPART**  
This LRS code must be submitted with a subpart to identify offense applicable.
- 22010**                    **THIS LRS CODE MUST BE SUBMITTED WITH A SUBPART OR A SUBPART WITH A QUALIFIER**  
This LRS code must be submitted with a subpart or a subpart with a qualifier to define the offense applicable.
- 22015**                    **WARNING-LRS SUBMITTED WITH A SUBPART AND NO QUALIFIER**

This LRS was submitted with a subpart and no qualifier.  
Check Master LIBRS/LRS Code Table to be sure the correct  
offense is being reported.

**22020 THIS LRS CODE MUST BE SUBMITTED WITH A QUALIFIER**

applicable.

offense, resubmit this LRS with a qualifier.

**22050                   WARNING-THIS LRS SUBMITTED WITHOUT A QUALIFIER IS REPORTED AS SIMPLE ASSAULT (13B)**

**If this LRS is submitted without a qualifier, the offense will be reported as Simple Assault (13B). If this is not the correct offense, resubmit this LRS with a qualifier.**

**22055                   “WARNING-THIS LRS SUBMITTED WITHOUT A QUALIFIER WILL BE REPORTED AS ALL OTHER LARCENY-THEFT OFFENSE (23H)”. IF THIS IS NOT THE CORRECT PROPERTY DESCRIPTION CODE, RESUBMIT WITH CORRECT CODE**

**If LRS Code of 14:67 is submitted with no qualifier and DE # 15 is not equal to: "03", "05", "24", "28", "37", "38", or "04", then the agency would receive a Warning Message.**

**22060                   WARNING-THIS LRS SUBMITTED WITHOUT A QUALIFIER AND DE #15 = "38" WILL BE REPORTED AS THEFT OF MOTOR VEHICLE PARTS (23G). IF THIS IS NOT THE CORRECT PROPERTY DESCRIPTION CODE, RESUBMIT WITH CORRECT CODE**

22075

**MUST SUBMIT AN OFFENSE SEGMENT (SEGMENT 20) FOR EACH VICTIM**

It is necessary to submit an Offense Segment for each victim in order to connect each offense to each Victim. Each Offense Segment 20 has information on which Offense is connected to Victim Sequence Number; this is the link between each Offense and each Victim. If there is more than one Victim in an Incident, each Victim must have an Offense Segment 20 to identify which Offense they are connected to.

22080

**SEGMENT 51 MISSING -- MUST BE PRESENT IF VICTIM TYPE IS "I" OR "L" (LIBRS ONLY)**

If Victim Type is "I" = Individual or "L" = Law Enforcement Officer, Segment 51 must be present.

22081

**SEGMENT 52 MISSING -- MUST BE PRESENT IF VICTIM TYPE IS "I" OR "L" (LIBRS ONLY)**

If Victim Type is "I" = Individual or "L" = Law Enforcement Officer, Segment 52 must be present.

22085

**IF LRS CODE APPENDED WITH "-A", "-C", "-I", "-S", OR "-H", DE #7 MUST BE "C" = COMPLETED**

If LRS code of this offense appended with "-A", "-C", "-I", "-S", or "-H", this means the offense was an Inchoate of the principle LRS offense shown in the first ten digits of DE # 6

and DE # 45. These modifiers for the LRS Code should always be considered as "Completed", even if the principle LRS offense was not. The offender completed the conspiracy, even if the offense itself was not completed by the offender conspiring with.

22086 ONLY ONE DASH " - " ALLOWED PER LRS OFFENSE

22100 AGE MUST BE "01" - "16" FOR JUVENILE OFFENSES
